## BENTLEYVILLE STREET CAR LINE IS OPENED

**First Car Is Run Thursday With Due Ceremony**

**LOCAL MAN RINGS BELL**

**Small Party from Charleroi on Hand to Witness Formalities**

Bentleyville is now on the trolley map of Western Pennsylvania. This auspicious event formally materialized Thursday afternoon, when the officials of the Westside Street Railway company made a tour of inspection in a new trolley car over the completed section of the line running from Weaver Station through Bentleyville to Ellsworth, on the projected connection from Charleroi, and that section was opened for traffic that evening. It was in operation all day during the Fourth and did a thriving traffic between Bentleyville and Ellsworth. It will continue permanently.

Under the auspices of Supt. D. G. Callahan a number of invited guests were in the car when it made its official tour that marked the formal opening of that end of the line. In the company were Burgess Johnston and some of the councilmen of Bentleyville, J. J. Hott, John C. McKean, John Jenkins, Henry Sheetz and others from Charleroi. The Charleroi party went out in automobiles and boarded the official car at Bentleyville.

The car was run along the completed section of the line, which at present is about three miles and a half. The regular route of the traffic will be between Weaver Station, which is at the Acme mine, this side of Bentleyville, and through the latter place to Ellsworth. There is a large population in this territory and the passenger traffic is expected to be large. One car will be used in this traffic for the present, but more will be installed later if needed. The car was shipped in by rail, and was manned by a regular crew from off this end of the line for the regular traffic.

The people of Bentleyville and Ellsworth are highly elated over the opening of the line between the two towns. According to the terms of the Bentleyville franchise cars were to be running by August 5, but Supt. Callahan is fully a month ahead of the contract. The line was constructed by the company under direction of Supt. Callahan, who did some energetic work in order to get the line in operation by the Fourth. The Bentleyville end included some heavy construction work. In the section was a 10 foot cut 500 feet long containing over 3,000 cubic yards of earth, and a bridge 400 feet long. This latter structure is one of the best street railway bridges in this section of the state. It has a steel girder under each rail, and is built for double track. It is big and strong enough for a steam railroad.

During the tour of inspection John Jenkins had the honor of ringing up the first fares. Handing a dollar bill to Supt. Callahan, Mr. Jenkins proceeded to ring up that number of fares on the indicator. Supt. Callahan announced that he would have the bill framed, as a souvenir.

As previously stated the Parsons Construction company is at work on a contract for grading the heaviest part of the work between Charleroi

## Are Settling Death Claims

**Monongahela River Consolidated Coal and Coke Co. Paying for Disaster**

Representatives of the Monongahela River Consolidated Coal and Coke company, which owns and operates the Cincinnati mine at Courtney where on April 26 occurred an explosion resulting in the death of 97, are settling death claims with the legal heirs. The company it is stated is paying the widows with families \$2,000. The scale runs from this amount down to \$500. Miners are assisting through a relief organization that was maintained and much outside money has been contributed.

## RIVER CLAIMS VICTIM

**Man in Swimming at California Watched Go Down**

**WAS A GOOD SWIMMER**

Thinking he was simply playing tricks on them friends of Anthony Kaufave, a Pole about 40 years old was permitted to drown in the river at California on the afternoon of the Fourth. Kaufave was a good swimmer, and when he went down three times his friends only laughed.

A party had gone in swimming in the river not far from the railroad station at California. Kaufave struck for the middle of the river and got out there easily enough while the others disported themselves nearer the shore.

He turned to come back. Then suddenly he was seen to sink from sight. Evidently he had done that sort of thing before an dhis friends thought it a good joke and laughed. Soon his head bobbed from the water, and down he went again. Again his friends laughed and again the performance was repeated. Pretty soon the search of his body started.

The body was recovered this morning and taken to a morgue. Kaufave was married and leaves a widow in the old country. He was a Palander.

and Bentleyville. The Westside company is also grading the Charleroi end along Maple Creek. Supt. Callahan stated that he expected to be able to hook up with the Parsons Construction company's work in the space of about 45 days. The company has opened a fine lime stone quarry just below Weaver Station and has installed a crusher which will deliver 18 tons of crushed ballast a day.

The work is being pushed along as rapidly as possible and another year will witness through and complete transportation between Charleroi, Bentleyville and Ellsworth.

## CHARLEROI QUIETLY OBSERVES THE FOURTH

**Residents Enjoy Day and Do It in Safe and Sane Manner---Ball Games and Playgrounds Program Features**

Unostentatiously, even quietly, Charleroi observed the Fourth of July. There was no special celebration here to enliven the occasion, and folks were on the whole just as happy without it. The day was too warm for a celebration and the observance was generally speaking just as fully enjoyed as though there had been an elaborate program.

The one day's vacation was spent in a variety of ways by Charleroi people. Eldora park was near and scores sought shelter from the boiling hot sun by going there. Brownsville had a big celebration and there were many attracted there. Locally there were two big ball games and a playgrounds program in the afternoon and in the evening.

In the evening fireworks displays were set off by individuals for the enjoyment of the children--always for the enjoyment of the children. At Eldora park there was a big display. Pittsburgh claimed for the day some Charleroi people partly because of the extended progress there. Picnic parties went out early in the morning to groves near town and far from town to spend the day and did not return until late at night.

Owing to the careful watch maintained on the sale and use of fireworks and the efforts for a safe and sane Fourth, few injuries were reported. None of any consequence were made known. There was some regular Independence Day noise made by the juvenile population but that was all.

## AUTOISTS HAVE MISCONCEPTION OF NEW LAW

A curious mistake in regard to the proposed new automobile registration law has caused the State Highway Department's automobile registration division at Harrisburg to be flooded with letters containing applications and checks for new automobile licenses. An impression seems to have gotten abroad that the Buckman act which changes the fees and prescribes new regulations, has become a law. The bill which went through the Legislature in the closing days in the form of a conference report, has not yet been approved by the Governor. If it had been signed it would not be effective until 1914.

The officers of the automobile division have been sending back checks with letters explaining that there is no new law just at this time.

The registration of cars has gone up to 70,000 and the revenue from that source now amounts to \$736,600.

## POET BARNARD ADDRESSES BIG CROWD AT PARK

"Child Labor" and "Womanhood" were the particular points that William Francis Barnard, author, orator and poet touched upon in a lecture given at Eldora Park on the afternoon of the Fourth. A large crowd listened to his learned treatise. Mr. Barnard told of the wrongs in connection with child labor and argued that woman be given what he termed her proper rights. Mr. Barnard is well known as one of America's foremost authors and poets. Among his writings are two volumes of poems "The Moods of Life" and "The Tongues of Teal." He recited some of his poems.

Born--To Mr. and Mrs. R. F. Elliott, a son.

A good show every day at the Star. Come and we will convince you. 283-tf

## ACCIDENTS HAPPEN TO TWO TEAMS

Two accidents occurred to teams Thursday evening that resulted in some injury to horses and damage to vehicles. A team of S. T. Franks, the Second street grocer turned down Fourth street from Lincoln avenue at about 6:30 o'clock and dashed madly down Fourth street. The wagon overturned, but the driver "Bob" Coulter stuck to his lines and the team was controlled at McKean avenue. He was not hurt and the horses did not suffer, but the wagon was splintered somewhat.

A team of J. W. Latchem's and an automobile driven by a Monessen man collided on the new road and one of the horses had an eye punched out. It was otherwise injured and the other horse was scratched some. The automobile showed effects of the collision parts of the front equipment being broken and torn.

## MANY JUDGESHIP ELECTIONS COME UNDER NEW LAW

If the nonpartisan ballot law applying to judges becomes a law through the signature of Governor John R. Tener at least twenty judgeships of common pleas and four of orphan court will be voted for in that manner says the Harrisburg Telegraph. Thirteen counties will elect common-pleas judges, including those in which judges were appointed by the Governor to serve another year because the constitutional amendment of 1909, abolished such elections except in odd numbered years and three will elect orphan's court judges. The ballot would also effect county or municipal court judges in case of elections being held.

The counties that would be affected in common pleas judicial elections are Philadelphia where six new judges have just been appointed and the terms of two will expire; Allegheny, Bucks, Dauphin, Clearfield, Clarion, Lehigh, Potter, Carbon, Lackawanna, Butler and the Monroe-Pike district.

Counties where orphan's court judges are to be elected are Allegheny, where two will be chosen Becks and Lackawanna.

## CELEBRATION IS HELD AT THE PLAYGROUNDS

**Will Discuss Union Picnic**

**Adult Federated Classes Will Take Up Proposal At Sunday Meeting**

The feasibility of holding a union Sunday school picnic will be discussed on Sunday afternoon at 3 o'clock at the First Presbyterian church by the Adult Federated Bible classes. Delegates will be appointed in the morning at the various Sunday schools to attend the meeting. If a picnic is held the probabilities are it will go to Eldora Park. There is said to be much sentiment in favor of a union picnic. Reports will be heard from local committees that had to do with the recent Sunday school convention.

## 7,000 AT ELDORA ON FOURTH

**One of Biggest Days In Park's History Is Enjoyed**

**GOOD ENTERTAINMENT**

Capacity crowds were entertained at Eldora Park on the Fourth. With everything in the very best of running shape the day was a particularly enjoyable one for the 6,000 or 7,000 who visited the park from all along the valley. Every amusement place was taxed to its utmost and extra workmen were required to assist the regular park employes in caring for the people.

The chief feature of the afternoon was dancing. The dancing pavilion was somewhat crowded but that made the dancing all the more enjoyable. Many from nearby towns took their dinners and suppers and stayed all day.

In the evening at 9 o'clock a fireworks display was set off that was meritorious. She display consisted principally of aerial pieces.

Never was the park in better shape for handling a crowd than it was on Friday and never was a crowd handled in a more delightful way. This was owing to the care taken. All week preceding Friday men were engaged at the park getting things in readiness for the big day and when the people began streaming in everything was perfect. As in the afternoon dancing proved a feature in the evening.

**Information Wanted.**

Of Walter Sovinske, 11 years old of Monessen, who was sent to the meat market June 31, and has not been seen since. The lad was barefooted and wore a light shirt, a black vest, cap and dark striped pants. Address all information to his father, Pete Sovinske, 199 Oneida street, Monessen, Pa.

**Baby Show Is a Feature of Affair and Judges Get Chased**

**GOOD ATHLETIC SPORTS**

**Boys and Girls Participate In Many Lively Contests for Prizes**

The Fourth of July was celebrated at the playgrounds by special program of sports given by the boys and girls under the direction of Earl B. Ames, instructor for the boys and Miss Bertha Charles instructor for the girls. Their program consisted largely of races and athletic events, at that was not all. As planned the day was made a visiting day for parents and large numbers wended their way there in afternoon and evening. Refreshments were served from neat stands and a neat sum was realized to pay on the work at the playgrounds.

One of the chief features of the entire day was the baby show at night. A number of babies were entered in this contest which proved to be exciting. It all ended by some of the judges being chased from the field by women who thought they did not know good looking babies when they saw them. And they were married so near that and had seen the best looking babies in the world before. The baby show first prize was awarded to Evelyn Brand, the daughter of Mr. and Mrs. Joseph Brand and the second prize went to Mary Richards the daughter of Mr. and Mrs. C. B. Richards.

The judges for the baby contest were: T. J. Allen, W. Y. Brady, Dr. F. C. Stahlman, I. R. Blythe and John Lutes.

Results of the races of the afternoon were:

**Boys Races.**  
Marathon for boys under 13, won by James; second James Labrosse.

Marathon for boys over 13, won by John Dean; second Thomas Holmes.

Potato race, won by Joseph Fillingham; second, George Wagner.

100 yard dash, won by Thomas Brown; second, William Davis.

50 yard dash for boys over 10, won by James Oates; second, George Wagner.

50 yard dash for boys under 10, won by Paul Wagner; second Lester Beazell.

**Girls Races.**  
100 yard dash, won by Viola Wilson; second, Augusta Pelzer.

Egg race, won by Louise Brady; second Yvonne Parmentier.

Candle race, won by Louise Brady; second, Viola Wilson.

Potato race, won of August Pelzer; second, Viola Wilson.

50 yard dash, won by Carrie Riva; second, Eleanor Mogan.

**Motor Cyclist Hurt.**

Johnson Noble, pathfinder in a motor cycle race from Uniontown to Brownsville on the Fourth was painfully and seriously hurt on the Fourth when he lost control of his machine coming down the Brownsville hill and dashed headlong into a mail box. His face was badly cut. He is well known in this vicinity.

J. K. Tener, Pres. S. A. Walton, Vice Pres. R. H. Rush, Cashier.

### Of Proven Value

It is an advantage to have an account with the First National Bank. Its Safety and Good Service are points well worth considering, when desiring to make new or additional banking connections. Accounts subject to check are cordially invited.

Open Saturday Evenings from 8:00 Until 9 o'clock.  
4 Per cent. Interest Paid on Savings Accounts  
Depository for the State of Pennsylvania.

## FIRE CRACKERS

See our line of noise makers for the Fourth

## MIGHTS BOOK STORE

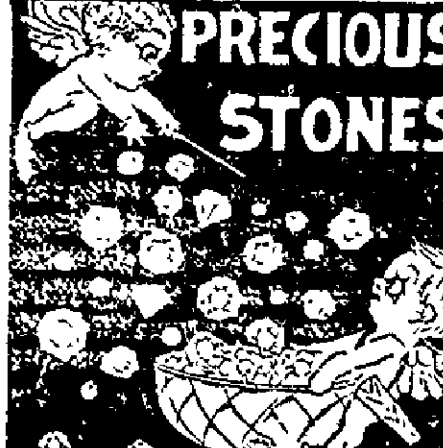

## PRECIOUS STONES

We have a splendid stock of precious stones--diamonds especially--and we wish to draw your attention to their excellent investment qualities.

A diamond selected from our stock is a superbly cut, pure flawless stone that will steadily increase in value--it's a first-class investment besides a jewel that will give the maximum pleasure in wearing.

## NO REGRETS.

The observance of the Fourth of  
July so far as Charleroi is concerned,  
carries with it no regrets. There was  
no public demonstration, which is  
after all of questionable advantage  
to a community, and consequently no  
big expenditure of money to be in-  
variably regretted later on when the  
ephemeral results are realized. Busi-  
ness and industry was generally sus-  
pended, leaving the people free to  
observe the holiday according to  
their individual inclinations. Local  
amusements and recreations were  
available, and money was spent freely  
in carrying out the spirit of the  
day in accordance with individual  
tastes and desires. In addition there  
were no serious accidents or casual-  
ties reported to mar the pleasure of  
the holiday.

After all this is a more profitable  
way to observe the Fourth than in  
the frenzied way of a public demon-  
stration. The latter always costs  
more than it comes to, and gets the  
community nothing permanent. The  
safe and sane observance carries  
with it no regrets, and really cir-  
culate more money where it will do  
the most good.

## ONE OF THE CERTAINTIES.

The connection of Charleroi with  
the populous Bentleyville and Ell-  
sworth district by trolley is now one  
of the certainties in the line of in-  
dustrial developments that will add to  
the prestige and standing of the Ma-  
ic City. The work of construction has  
now reached a stage when the  
question of time and cost is  
the advantage that will accrue to this  
achievement.

Not only will two new trading  
centres be united by the com-  
munity of this line, but a big  
agricultural district will be put with-  
in quick and easy trans-  
portation. The trolley line will also  
open new possibilities in farming and  
gardening which with so great a mar-  
ket as Charleroi affords cannot help  
but add materially to the production  
of the food products so badly needed  
in this section. Whatever develop-  
ments may be in store for Charleroi  
the trolley connection with the Ben-  
tleyville district is one of the certainties  
and it is now perfectly safe to  
make plans in which this line may  
figure.

A young man who formerly lived  
in Charleroi but is now engaged in  
the offices of the Jones & Laughlin  
company at Woodfin, tells how a  
time keeps there designates the num-  
berous foreigners with unpronounce-  
able names, and these the timekeeper de-  
signates to suit himself.

Being an ardent baseball fan the  
timekeeper gives names of baseball  
players and managers to the workers  
with unwriteable and unpronounce-  
able names. To a stocky built Slav with  
a square jaw and a name that would  
include all the letters of the alpha-  
bet, the cognomen "Mugsy" Mettaw  
appears on the pay roll. A dapper  
Italian with a curled mustache is put  
down as Barney Dreyfuss. Then there  
is of course a Honus Wagner, a  
Marty O'Toole, a Ty Cobb and a gal-  
axy of other stars of the baseball  
summit, all betowed to suit some  
characteristic trait.

"The foreigners, who are called by  
these titles, have entered into the  
spirit of the situation," says the nar-  
rator, "and their late pretension of  
the names is as comical as our at-  
tempts to distinguish them by their  
baptismal appellations. For instance  
Marty O'Toole, which is borne by an  
Italian, becomes Marty O'Toole, and  
Honus Wagner, is Honus Wagner-  
ski to the Polanders who bears the ti-  
tle. The foreigners themselves, as  
well as the timekeeper are getting a  
lot of fun out of the titles."

"What I call the irony of fate is to  
have a big head the morning after the  
Fourth when you did nothing to get  
it," said a young fellow who reported  
for work this morning looking the  
part. "Here I am with a raging  
headache, when I took extra pains  
yesterday to avoid one. I sat in the  
shade all day at home on the hill, did  
not shoot a firecracker, take a drink  
or eat anything unusual. Yet I've  
got all the symptoms of the morning  
after the night before."

"This sort of thing has happened to  
me a number of times, so that I'm  
now perilously near the point where  
I'm tempted to throw moral and phys-  
ical restraints aside and say, 'What's  
the Use?'"

## ELECTRIC SPARKS

A Boston pastor says it is blind  
for the men or veils for the women.  
Lady Chastance, with her favored  
costume of beads, may now be ex-  
pected to announce herself more vig-  
orously than ever in favor of no dress  
at all.

Most any kind of a shower is more  
pleasing to a girl than a spring shower.

Veterans that retreated from  
Gettysburg when the big encampment  
was about half over, could not have  
been induced to have retreated 50  
years ago from there.

It will not take many more re-  
unions to do away with all the old  
soldiers.

From policeman to lobbyist is the  
record of an Ohian. What an ad-  
vertisement that would make for a  
correspondence school.

It begins to look as though Wood-  
row and his family were going to  
weave over "13" and make it a  
lucky number.

According to rumor, it will be a safe  
and sane Fourth in the county jail.

Gov. Sulzer has been sued for  
breach of promise by a girl. It was  
generally recognized that he was a  
not well known, but this time  
it was known that he was  
famous.

The political of the time is just  
as same. If they allow a permit  
to be given to a man to be shown  
in an art gallery, they should  
not permit cubist alleged pictures  
to be shown there either.

The Democrats were told they could  
not act right when they got charge  
of the government. They wanted the  
spoils and now they have so many  
they don't know what to do with  
them.

See the show at the Star today.  
It is fine. 283-4

**Read the Mail**

# GOOD PREMIUM LIST ANNOUNCED FOR COUNTY FAIR

Ten thousand dollars in premiums  
for livestock, farm and household pro-  
ducts is the enormous offering of the  
Washington Fair association this  
year. This sets a new standard for  
Western Pennsylvania fairs and will  
undoubtedly bring out the greatest  
livestock and farm show ever seen in  
this part of the country.

What kind of livestock show the  
Washington fair will have this fall  
may be judged when it is known  
that the association offers approxi-  
mately \$2,000 for horses, \$2,500 for  
cattle, \$1,200 for sheep and \$800 for  
swine. The premiums for fruits,  
grains and vegetables and all the de-  
partments for household products  
covering the hall exhibits are on an  
equally lavish scale and largely in  
excess of anything ever offered be-  
fore. The poultry show which was a  
great success last year will offer  
premiums just double those of the  
last exhibition, totaling almost \$2,500.

What is expected to be the biggest  
single feature of the 1913 fair will  
be the grange exhibits. The first  
grange show was made last year.  
Washington, Amwell and Hopewell  
granges competing. Last year the  
premium was \$10 offered by the as-  
sociation in conjunction with a simi-  
lar amount offered by the Pomona  
grange. This year the association  
has offered \$100 for grange competi-  
tion and it is expected to bring out  
the biggest agricultural show ever  
seen in Washington county.

# AFFAIRS QUIET ON THE FOURTH

Affairs were very quiet in Charleroi  
on the Fourth. Only five arrests were  
made by the police. These were all  
for drunkenness. The story is prac-  
tically the same all over the country.

## Wise Precaution.

Shopper—I want to buy a necktie  
suitable for my husband. Salesman—  
Sorry, madam, but we are not per-  
mitted to sell neckties to women who  
are unaccompanied by men.—Puck.

## Big Sculpture

The most remarkable proposal ever  
made about Mount Athos was that of  
the architect Dinocrates. His plan  
was to cut it into the shape of a gi-  
gantic statue of Alexander the Great,  
holding in the right hand a city, in  
the left a tank that was to receive all  
the waters of the region. Alexander  
was much taken with the scheme. But  
it was eventually rejected on the  
ground that the neighboring country  
was not fertile enough to feed the in-  
habitants of the projected city. An-  
other of Dinocrates' plans was a tem-  
ple to the wife of King Ptolemy of  
Egypt, with a roof of loadstones that  
would keep an iron statue of her float-  
ing in the air.

# Toe the Mark!

Start off right and cam-  
paign for new  
business.

## ADVERTISE

The late J. P. Morgan once said:  
"Do something big and every-  
body will help you."

Had he advertising in  
mind?

Try out Mr. Morgan's  
advice with us and see  
for yourself.

# AMONG THE CHURCHES

Washington Avenue Presbyterian.  
Sabbath school at 9:45. Preaching  
at 11. Sermon, "Learning God's Se-  
crets." C. E. at 7. 1:30: "The Ide-  
als of Christ." Leader, J. J.  
Jobe. Preaching at 8. Sermon, "A  
Quest Who Did Her Duty." Stran-  
gers and those without a church home  
are cordially invited to worship with  
us. Rev. John R. Benson, pastor.

## Baptist.

Sunday school at 9:45. Public wor-  
ship at 11, with sermon by the pas-  
tor. Subject, "The Providence of  
God." Ordinance of the Lord's supper.  
Young People's meeting at 6:45. Visi-  
tor and strangers will be cordially  
welcomed. Rev. E. G. Stanley, pastor.

## Lutheran.

Sunday school at 9:45. Holy com-  
munion administered at 11. Vesper  
services with sermon at 7:30. Sub-  
ject "Beautifying the Doctrine." Holy  
communion will be continued at  
the evening service. A cordial in-  
vitation is extended to the public to at-  
tend all services. Rev. C. P. Bastian  
pastor.

## St. Mary's Episcopal.

Corner Sixth and Lookout. Sunday  
school and Bible classes at 9:45. An-  
te-communion service, sermon and  
celebration of the holy communion at  
11. Subject of discourse, "Religious  
Meditation." Evening prayer and  
address at 7:30. Subject "The Con-  
summation of a Good Conscience." The  
Sunday school of St. Mary's  
church will hold their annual picnic  
Wednesday, July 9 at Eldora Park.  
A special car will leave corner of  
McKean and Sixth street at 9:30.  
All are cordially invited. Rev. Lu-  
cius W. Shey, rector.

## First Presbyterian.

Sunday school 9:45. Communion  
service at 11. Reception of new  
members and baptism of children.  
S. C. E. at 6:20. Evening services,  
which during the summer months  
will be of 30 minutes duration at  
7:30. The benevolent offering is for  
the board of church erection. All are  
welcome. Rev. J. T. Hackett, pastor.

## Methodist.

Combination service church and  
Sunday school at 10:30. Epworth  
League at 6:45. Public worship at  
7:45. Everybody welcome. Rev. F.  
A. Richards, minister.

## First Christian.

Sabbath school at 9:45. Preaching  
and Lord's supper at 10:15. Subject  
"Unholy Peace." Junior Christian  
Endeavor at 6. Subject, "The Ideal  
Christian's Courage." Evening wor-  
ship at 8. Subject, "Sharing Bur-  
dens." All services will be shorten-  
ed during the summer months. Wed-  
nesday prayer meeting at 7:45. All  
strangers to our city are cordially in-  
vited to attend all of our services at  
the downtown church. This is the  
people's church. Come. Rev. E. N.  
Duty, pastor.

## To Make Hatpins Safe.

While the many victims in all parts  
of the country of the woman's hatpin  
may no longer take much interest in  
the matter, those of us who have so  
far escaped injury will be glad to  
hear of the invention of a hatpin  
guard. With all that has been done  
by women's clubs and other agencies  
to denounce the use of the long hat-  
pin, with all the laws and local regu-  
lations against it, and despite the con-  
tinuing recurrence of accidents—fre-  
quently as serious as the loss of an  
eye—the hatpin is still popular, and  
women persist in wearing them in  
crowded street cars and theaters and  
similar places, where they are most  
dangerous. But if they cannot be  
abolished by law, perhaps it will be  
possible to enforce the covering of  
their points. That is what this hatpin  
guard does. It is simple, easy to put  
on or off, and quite inconspicuous. As  
seen from the accompanying illustra-  
tion, it consists of a little knob on the  
end of a hollow cylinder, which slips  
over the point of the pin and holds  
fast by a spring. The inventor of  
this device is Louis Lasson, the pian-  
ist, of this city, who says he was  
moved to think of the matter by read-  
ing of the many serious accidents  
caused by the hatpin.

## Little Doubt About It.

Married a month, a young man told  
the magistrate that his wife had done  
the following things: Torn up the  
marriage certificate, pawned the ring,  
torn up her wedding dress, assaulted  
him. She followed him to court, he  
added, but he managed to dodge her.  
The Clerk: "You took her for better  
or worse, and you seem to have got  
the worse."

Specialists Recommend Yawning.  
In the opinion of learned specialists  
no one can be healthy unless he or  
she does a certain amount of yawning.  
When you yawn you expel from the  
lungs a lot of superfluous air; the  
breathing muscles of both the chest  
and the throat are strengthened by  
yawning.

# NOTHING OF DIGNITY

**STRENUOUS HORSE-PLAY A MARK  
OF THE HOLI FESTIVAL.**

Traveler in India Describes Peculiar  
Methods of Making Merry in  
Which Native Ruler and  
His Suite Indulge.

A curious childish horseplay of the  
Holi festival, which is celebrated an-  
nually by the maharajah of Patiala,  
is described by Mr. Charles Ber-  
tram.

Early in the morning I went to the  
club, where I found many of the guests,  
who were taking part in the cere-  
mony for the first time. We were  
provided with a complete new suit  
of Hindu garments and our dressing  
was superintended by the maharajah's  
servants. We had camels, elephants  
and victorias provided for us. I  
was on an elephant in a kind of box,  
and we drove in procession to the  
palace in the native city.

We were received with great ac-  
claim by the natives, and I was led  
to believe that it was to be decidedly  
a dignified occasion; but I was woof-  
fully mistaken. The fun had not  
begun. Certain formalities had to  
be gone through before the signal was  
given.

We took our seats in the courtyard  
of the palace, at a long table that  
was loaded with large gilt dishes filled  
with different colored balls as large  
as oranges and filled with Holi powder.  
At a signal the brother of the  
maharajah came to the front of the  
table and saluted the prince, who  
took one of the balls and threw it  
gently across the table, striking the  
officer on the breast.

The ball broke and scattered the  
powder over his costume. Then there  
was a general scramble, and in less  
time than it takes to write, hundreds  
of balls were flying about, their many  
colored contents scattered broadcast  
on the crowd. Next baskets of loose  
powder were thrown upon us in  
handfuls.

It was no use to expostulate; the  
moment you opened your mouth some-  
body filled it with powder. The bat-  
tle grew fast and furious, when sud-  
denly an enormous stream of water  
from a fire engine drenched every-  
body. The colored powder became wet,  
and mingling together, dyed us all in  
brilliant variegated hues.

After this sort of thing had gone  
on for half an hour it ceased by mu-  
tual consent, and we returned to the  
private gardens of the maharajah,  
where we were most unceremoniously  
pitched into a tank of running water.  
I was dyed a deep scarlet all over my  
body, and it was fully a month before  
the color entirely disappeared from  
my face and hands.—Youth's Com-  
panion.

## The Value of Trying.

If a man constantly aspires, is he  
not elevated? Did ever a man try  
heroism, magnanimity, truth, sincer-  
ity, and find that there was no ad-  
vantage in them? That it was a vain en-  
deavor?—Thoreau.

## Impossible.

"A person should think twice be-  
fore speaking." "Perhaps so, but if  
some people were to think twice be-  
fore speaking they would be so ex-  
hausted they couldn't speak."—Bir-  
mingham Age-Herald.

**German Institution Teaches Girls  
Domestic Service, and Finds Great  
Demand for Graduates.**

Berlin has an institution, founded  
about two years ago by a woman.  
The object of the "Sister School," as  
it is called, is to train well-educated  
girls for domestic service. The stu-  
dents are generally daughters of pro-  
fessional men, and the curriculum  
comprises cookery, housework, the  
care of children, and needlework.  
When application is made for the ser-  
vices of a "sister," the matron, or  
some other woman connected with  
the school, calls upon the applicant,  
forms an opinion of the "situation,"  
and arranges terms. Each "sister"  
must be allowed a free afternoon  
every week, one Sunday every other  
week from four o'clock, and a fort-  
night's holiday in the year. Six  
weeks' notice is required on each part.  
The salaries paid range from \$7.50  
to \$12.50 a month, with, of course,  
board and lodging. Sisters wear a  
brown uniform, are treated as social  
equals, are not required to take  
meals with other servants, and are ad-  
dressed as "Sister Marie," "Sister  
Hedwig," etc. The demand for their  
services is so great that the head of  
the Sister school declares that she  
could place 500 girls a year, instead of  
150, and similar institutions are about  
to be established in other German  
towns.

# MAKE WAREHOUSE OF CHURCH.

Sacred Edifice at Brighton, England,  
Has Been Unfortunate Since  
Its Erection.

To serve as a cold storage ware-  
house for meat and eggs—such is the  
fate of the beautiful Church of the  
Resurrection at Brighton, England.  
Built at the expense of the late Rev.  
H. D. Wagner for the accommodation  
of the congregation, and for those who  
preferred a ritual simpler than that of  
St. Paul's church on West street, this  
building first attracted the public at-  
tention as the subject of a curious law-  
suit. Mr. Wagner planned to build a  
remarkably tall church, and the own-  
ers of the adjoining property, by  
means of a lawsuit, prevented him  
from so doing. Accordingly he caused  
deep excavations to be made, and  
thus secured the desired internal  
height. The Church of the Resurrec-  
tion proved to be a great expense and  
was closed in 1908, being, in the opin-  
ion of the present vicar of St. Paul's,  
no longer necessary for the purpose for  
which it was built. In 1909, after pro-  
longed opposition on the part of Rev.  
E. F. B. Weber, one of the trustees,  
it was sold. Since then it has stood  
empty and in disrepair, until the gro-  
tesque tragedy of its present usage oc-  
curred.—The Churchman.

## Tons of Iron Lost in Rust.

One large railroad system suffers a  
loss of more than eighteen tons of  
metal daily, due solely to the effect  
of rust. Thus far the only known  
preventive is to keep the metal sur-  
face always covered with a suitable  
paint. Some idea of the costliness of  
this remedy, however, may be gained  
from the fact that it requires about  
\$10,000 annually to paint one large  
railway bridge alone. A typical case  
of this kind is the Brooklyn bridge,  
upon which a corps of painters are  
constantly employed, as the weather  
makes repainting of one end of this  
large structure necessary before the  
workers have reached the other. Al-  
though experiments have demonstrat-  
ed that pure iron surrounded by oxy-  
gen does not rust, and that some acid,  
especially carbonic acid, is necessary  
for the production of rust, the secret  
of manufacturing rustless steel and  
iron remains to be discovered.

## Lasting Joke.

How long will a good joke last?  
Who can tell? You have heard that  
one about the good sleighing in Can-  
ada, and how by putting on a pair of  
pajamas and sitting on a cake of ice  
before an open window and ringing a  
bell one can get the same effect, and  
much cheaper. Billy Emerson, the  
minstrel, originated that one over  
thirty-five years ago, and it is one that  
has never run down. DeWolf Hopper  
began to use it in his curtain speeches  
eleven years ago, and ever since, eight  
times a week forty weeks a season, he  
has used it and it has never failed to  
get a laugh. Always there are some  
in the audience who never heard it.  
Hopper figures that with the addition  
of a few score times at private func-  
tions he has "sprung" the chestnut  
8,753 times. It is his one best bet, he  
says, and expects to use it as long as  
he is in public life.

## \$20 Gold Pieces a Quarter Each.

When five boys commenced to sell  
\$10 and \$20 gold pieces on the streets  
of North Scranton for 25 cents each,  
with the supply apparently unlimited,  
curiosity was at once aroused as to  
the source of supply, and the boys were  
taken into custody and given the  
"third degree." When searched the  
youths' pockets produced over \$500 in  
gold coin and when questioned they  
admitted that they had found a "pot of  
gold."

The money was buried in a box in  
the cellar of a house formerly occu-  
pied by Peter J. Scanlon, who during  
his lifetime had the reputation of be-  
ing a miser. There were \$420 in  
shiny gold pieces in the box. The  
boys, none of whom was over eight  
years of age, thought they were brass  
medals and sold about twenty of them  
before being arrested.—Scranton (Pa.)  
Dispatch to Philadelphia Record.

# DROP IN!

A Very Necessary  
Part of Your Busi-  
ness Equipment Is  
Your STATIONERY  
Supply.

Another Very Nec-  
essary Part of Any  
Business Is Reason-  
able Economy.

Play Suits of the best make

**FRANK RIVA** CHARLEROI, Pennsylvania.

## WAYS OF FRENCH BEGGARS

Select Their Favorite Prison, Then Commit an Offense to Insure Winter Accommodations.

Beggars and professional vagabonds who have passed thirty years do not fall each year when the winds of October blow to select their winter quarters.

It is then that each of them commits some offense, well knowing that he will get a penalty of six months' imprisonment. The delinquent so times his offense that he will not be at liberty until the month of April, in the first warm breezes of spring. He chooses his winter quarters wisely, for he knows the good and bad prisons.

Presnes, because of its valued and luxurious accommodations, occupies the first rank among prisons. This year the temperature was such as to bring about some true knavery on the part of these beggars and vagabonds. From the month of August they were forced to commit some offense in order to assure themselves a shelter.

So la Sante, the antechamber of Presnes, was gorged with prisoners for whom the tardy rays of the September sun proved a cruel irony. If the magistrates show clemency and condemn these derelicts to only six months of prison the disaster of these poor devils will be complete, for they will, without pity, be thrown into the street in the open month of January.—le Ori de Paris.

## ARE HANDSOMEST IN WORLD

Royal Irish Constabulary Bear Off the Palm From All Police of the Earth.

According to those most entitled to speak on the comparative pulchritude of the police, the Royal Irish Constabulary bear off the palm from all policemen in all other parts of the world. Dean Hole is quoted in the London Chronicle as contributing the following tribute to the fascinations of the noble Irish force:

"Our London police are well favored in appearance, but if the Royal Irish Constabulary were to take their place for a week there wouldn't be a single female servant to be warranted heart whole in the metropolis."

London goes to the rural districts for its policemen largely, and the result is often as amusing, not to say exasperating, as that which arises in New York from the employment of foreign car conductors, sublimely ignorant of city streets and neighborhoods. The Chronicle writer tells of an encounter with an inexperienced policeman who was asked the whereabouts of a famous firm in the neighborhood, to which query the new bob replied gayly:

"Bless ye, I know no more than yourself, sir. I only came up from Dorset yesterday."

Tea Drinking a Vice? A foreign critic says: "In hunting a cause for this apparent decadence of the once mighty people (the British), some scientists have had much to say on the subject of tea drinking, for nowhere else is the habit so universal as in the British Isles. Women and children drink tea off and on during the day. Business men have to stop their work at intervals to partake of their tea. And in most instances the brew is exceptionally strong. It has been estimated that each person in Great Britain, on an average, takes a daily dose of 3.6 grains of alkaloid and 9.7 grains of tannin consumed in tea. This means that the average tea drinker takes half as much alkaloid and nearly as much tannin as the Maximum allowed by the British pharmacopoeia for an occasional dose. And, of course, many thousands of people drink a great deal more than the average dose."

Speed of a Bullet. Experiments with improved instruments for measuring the velocity of projectiles have shown that the speed goes on increasing after the missile has left the mouth of the cannon. Leaving the muzzle with a velocity of 1,474 feet a second, a projectile has been observed to increase its speed to 1,639 feet a second within the first six feet. It is only after having traveled 25 yards that the projectile's velocity becomes reduced to the speed it has on leaving the muzzle. This is ascribed to the impulse of the expanding gas being felt for some distance beyond the cannon's mouth.

Check. "Check" in the sense of impudence is an old term. The earliest quotation in Sir James Murray's dictionary is from Captain Marryat (1840). But it has lately been found in the sixteenth century records of Galway, in the west of Ireland. The municipal rulers of that fighting city—the "men from Galway" has become proverbial for pluck and readiness to defend the hottest of corners—decreed that any person giving "check" to the mayor should "forfeit 100 shillings and have his body put into prison."

Varying Melting Points. The melting points of various heat-resisting materials have been thus determined by the United States bureau of standards: Fireclay brick, 2,331 to 3,137 degrees Fahrenheit; bauxite brick, 2,841 to 3,245 degrees; chromite brick, 3,772 degrees; magnesite brick, 3,929 degrees; bauxite, 3,308 degrees; chromite, 3,956 degrees; pure alumina, 3,650 degrees; pure silica, 3,182 degrees; silicon carbide, beginning to decompose at 4,023 degrees, but does not melt below 4,822 degrees.

## Thanks to the Cartoonist

Party emblems that figure on ballots represent the more serious purposes and type the traditions of various political followings; but the emblems that the cartoonists and humorists have established are the more popular, because they represent that cheerful mood in which a majority of persons attack politics without abandoning the earnest aim that underlies its manifestations.—Judge.

Science and Death. "Even in the face of the inexorable law of death," says the Lancet, "science still has a consoling message. It can hold out the hope that one day the ravages of disease may so far be eliminated that death will be nothing more than a quiet and painless phenomenon. It will cease to be feared, and come even to be desired as a fitting close to a weary day."

Watch Built in a Pearl. A tiny watch, which has been made inside a pearl as large as a big pea, has just been constructed by Gallopin & Co. of Geneva, fifteen months being spent on the work. The empty pearl weighed forty-five grains and in diameter is less than an inch. This pearl watch can be worn on a ring or as a pendant and cost \$6,000.

Still at It. "I wonder what has become of my husband. Three days ago I sent him to match a sample at a department store. He hasn't been seen since." "I saw him yesterday. He was at the third counter of the fourteenth aisle, and was just starting for the fourteenth counter of the third aisle."—Washington Herald.

Caution. "Shall I empty your wastebasket?" asked the janitor. "It is brimful of correspondence." "No," answered the man who is combining politics with high finance. "Just hand me my bonds and stock certificates and I'll stuff 'em in some pigeonhole so that you can lock the waste-basket in the safe."

"Costermonger." Ribbed costard apples, a cooking kind, are now to be seen in the shops. The costard is referred to in the household accounts of Edward I., in whose reign the street seller of the apple was called a costardmonger, hence "costermonger" and "coster."—London Standard.

Apology. Conjurer—"Now, sir, you admit that the card you have just taken out of the handkerchief is the queen of clubs, yet the card you chose and securely tied there—namely, the ace of spades—I now produce from this hat." Timid Volunteer—"So sorry—my mistake."—Punch.

Home Happiness. Probably nineteen-twentieths of the happiness you will ever have, you will get at home. The independence that comes to a man when his work is over, and the feeling that he has run out of the storm into the quiet harbor of home, where he can rest in peace and with his family, is something real.

Poetry at the Bottom of the Mug. "He will work," said a Tottenham (Eng.) constable of a defendant. "If he knows there is a pint of beer at the end of the job." This must have been very much the sort of thing Tennyson had in mind when he wrote "Follow the Gleam."

To Sterilize Cistern Water. Cistern water can be thoroughly sterilized by the addition of one-tenth of a grain of hypochloride of lime to the gallon. This does not injure the water for laundry and bathing purposes.

Precious Attributes. "Why are diamonds so highly valued?" "I suppose," replied Mr. Groucher, "it's because they are made of carbon, which is the equivalent of coal, and at the same time look like ice."

Dog Earned His License. The little fox terrier of L. N. Hanley won for his master a license tag for the killing of 100 rats. The prize was offered, when the canine had killed 80 in two weeks, by a member of the council.—Carlisle Advocate.

Fity. A girl who has a steady beau feels the same kind of pity for the girl who sits alone night after night that the boy who can dive has for the one who is afraid to wade in "above his knees."

As a Precaution. Get a dozen tiny bells, and every time a bottle of poison is brought into the house tie a bell to the neck. Even in the dark the bell will tinkle its warning.

One More Item. Not that we cannot think of other ways of frittering away money, but some day we hope to be rich enough to afford a "going away coat" for our dog.—Houston Post.

Cheap Dish. Hunter's stew can be composed of any ingredients which can be obtained conveniently.—London Globe.

## QUEER FACTS ABOUT MONEY

Average Lifetime of Various Denominations of Paper Currency Differ Considerably.

The average lifetime of the different denominations of United States paper currency differs considerably; that of the \$1 silver certificate, for instance, being a trifle over one year; the \$5 silver certificate, 1.9 years; the \$10 gold certificate, 1.68 years; the gold certificate, 1.9 years, etc. The number of pieces of United States paper currency in circulation is gradually increasing and numbered 327,329,159 on June 30, 1912. There were 273,426,336 pieces of United States currency redeemed during the same period, which exceeded by 5,218,415 the number of pieces issued the preceding year. The increasing growth in redemptions is due primarily to the growth in business activities, the publicity given to uncleanness and alleged insanitation of soiled notes, and the consequent demand for cleaner money; the growing practice of payment of wages in factories, shops, etc., weekly and bi-weekly, as compared with monthly; and growing popularity of paper money in sections where silver was formerly in the greatest demand, etc.—Leslie's Weekly.

## UNIQUE EXAMPLE OF LOYALTY

Popular Daughter of Prominent Chinese Official Is Married to Large Red Vase.

Not long ago considerable commotion was caused in the Chinese city of Hankow when the attractive and popular daughter of a prominent Chinese official was married with great pomp and ceremony to a large red vase which was supposed to represent a deceased bridegroom who had died a few years before his marriage. Whereupon his grief-stricken bride-elect declared that she would never marry any one else, but would devote herself as a widow for the rest of her life to the family of her husband. In order to do this, however, it was necessary that she should legally belong to that family and so the strange ceremony with the vase was gone through with to enable her to become a member of the family. Since then it has been suggested that an arch should be built in the city in order to commemorate the devotion of the young girl to the husband she never had.

China Market for Hats. Men who have wondered what becomes of the large stocks of hats, caps and clothing that remain unsold at the close of each season in this country will be interested to learn that a considerable portion of such stock is disposed of in China, where the men are adopting the dress of their western brothers. The rising generation of Chinese is particularly keen for headgear worn in America, but the styles seen there are always those that were in vogue in this country the year before.

Much of the men's apparel that falls to find a market in this country finds its way to the far east. In a walk through the streets of any Chinese city one sees derbies, fedoras and caps that bear an American label. Most of the caps are of British make because many of the tourists come from London, and in selecting a cap the native has no guide except the headgear he sees on foreigners.

Coal and the X-Ray. It is now believed that the mystery of the formation and constitution of coal, which has long puzzled students, will be solved by means of the X-Ray. According to a French scientific journal, there are two or three kinds of ash in coals: First, the foreign matter carried by the wind or the rain into the forests that gave rise to the coal. Next there is the mineral matter that forms part of living plants. Finally, there is generally more or less mineral matter due to the formation of new compounds by the decomposition of the first two kinds of ash. The examination of coal with the X-rays will probably lead to a possible distinction between these three forms of ash, and will thus contribute to throw light on the formation of veins.

Bottle-Fed Fruit. Bottle feeding is the latest wrinkle in the growing of the enormous winter greenhouse fruit, and it has increased the fruit's size and sweetness 50 or 90 per cent. Peaches and pears are like pumpkins; grapes and strawberries like apples.

When a peach or a pear is young and green and hard, the gardener passes through it a needle and thread of coarse cotton, leaving both thread ends sticking out. He does this till eight or ten ends are obtained. These ends he puts into bottles of sugar and water syrup, and the syrup, flowing along the cotton, is absorbed by the fruit, sucked up by it—sucked up as babes suck up milk—the fruit, in a word, is bottle-fed.

Arguing It Out. "The horse is superior to the automobile at every point." "Nonsense. You can't name a point." "Well, for one thing, you can eat horse meat. Thousands do."

"I've tried it. I'd just as soon have a piece of rubber tire with gasoline sauce."

Secret No Longer. Marryat—So that great inventor is dead and his wonderful secret is lost. Newitt—Not at all. He told it to his wife just before he died.

Marryat—Yes, that's what I mean. —Silly Stories.

## A NOTRE DAME LADY'S APPEAL

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or sciatica, to write to me for a home treatment which has repeatedly cured all of these troubles. She feels it her duty to send it to all sufferers of RHEUMATISM. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, restores the blood, and brightens the eyes, giving elasticity and tone to the waste system. If the above interests you, for exact address Mrs. M. Summers, Box 8, Notre Dame, Ind.

NEWSPAPER ARCHIVE

# PARASOL WEATHER

Along with the cool Summer Dress, the Parasol has the call. Holidays and vacation require some means of protection from the summer sun. Our Parasols answer this purpose well, and they are so inexpensive, so dainty and light that everyone should have one.

They come in a beautiful array of colors, borders and stripes. Ladies' Parasols 75c to \$3.75. Children's Parasols 19c to \$1.50.

Get your parasol now and get a full summers use out of it.

## BERRYMAN'S The Big Store

### SOCIETY AND PERSONAL

H. J. Booth and W. L. Lorimer went to Chautauqua to spend the Fourth and visit over Sunday.

Mr. and Mrs. J. M. Whitlatch have gone to Parkersburg, W. Va., to visit the former's brother.

Mr. and Mrs. Charles Lewis and family are visiting Brownsville relatives.

Mrs. Flora Conway went to Brownsville to spend the Fourth.

Norman Brown was in Brownsville over the Fourth.

Mr. and Mrs. W. W. Seaton, of Uniontown visited over the Fourth with the latter's mother, M's. Claybaugh.

Mr. and Mrs. L. S. Brown were here from McKeesport to spend the Fourth.

W. Raymon Kent left today for Brisbane where he will visit at his former home.

Mr. and Mrs. S. J. Richardson have returned from a visit with relatives Fourth with the latter's parents, Mr.

and friends in Cleveland, and Akron, Ohio.

Robert Christopher has gone to Canton, Ohio to visit.

Dr. and Mrs. C. C. Wright are among those from Charleroi who are in attendance at the international eisteddfod at Pittsburgh today.

Mr. and Mrs. T. D. Williamson left this morning for Fairmont, W. Va., to visit friends.

A party of picnics from Charleroi enjoyed the Fourth on a farm back of Brownsville. Included in the party were Misses Mildred Lowstetter, Genevieve Lowstetter, Mary Glunt, Margaret Stephens, Edith Cull, Margaret Heaton, Edith Hazlett, Agnes Hazlett, Alma Lutes, Lena Winget and Messrs. Lambert Heaton, Earl Nicholson, Roy James, Edgar McCain, Walter Lutes, of Charleroi and Mr. and Mrs. Herbert Mason of Youngstown, O., came to spend the Fourth with the latter's parents, Mr.

Mrs. S. M. Martin. Thomas A. Mosier and Samuel En-dress were here over the Fourth from Akron, Ohio, to visit at the home of the former's parents, Mr. and Mrs. J. P. Mosier, on Chest avenue.

**Rabbits Cause Immense Loss.**  
Observant and experienced men compute that eight or ten rabbits eat or destroy as much grass as one sheep. As there are so many millions of rabbits in Australia, the loss in the carrying capacity of the country is appalling. The pest in New South Wales is spreading, notwithstanding all that is being done in the shape of trapping, poisoning, fumigating, and digging out.

**Pretty Girls and Plain Men.**  
When a pretty woman marries a plain man it is not because she pities him. A woman loves a man because of his strength. His determination appeals to her, and wins her in the end, though she may not have been attracted to him in the beginning. Firmness compels a woman's admiration and respect, and that is the first stepping stone to love.

**Child-Training.**  
It is not fair to a small child for the parents or nurse to be careless about the little things that develop thoughtfulness, self-reliance and self-control in a child. Self-control is a characteristic absolutely essential to manhood or womanhood, and it is not learned in a day. It is the result of patient teaching and training through all the long years of babyhood and childhood.

**Thought His Duty Ended.**  
The Duc de Raguse once explained to the Countess de Boigne the nature of his connection with the emperor as follows: "When the emperor said, 'All for France,' I served with enthusiasm; when he said, 'France and I,' I served with obedience; but when he said, 'I without France,' I felt the necessity of separating from him."

**Didn't Appreciate Whitman.**  
Shortly after Walt Whitman's "Leaves of Grass" made its appearance, J. T. Trowbridge was walking with Lowell in Cambridge, when the latter pointed out a door-way sign, "Groceries," with the letters set zigzag, to produce a bizarre effect. "That," said he, "is Walt Whitman—with very common goods inside."

**Yield of a Grain of Wheat.**  
Very few people have an idea of the bounty of nature. A scientist of Cambridge, Eng., recently made an instructive experiment which showed that a single grain of wheat sown in June, produced 47 pounds 7 ounces. One acre of fairly good land will produce 30 bushels of wheat or 1,260 pounds of flour.

**Nicaraguan "Capote."**  
Instead of raincoats, the Nicaraguan wears a "capote," which is a piece of impervious material almost square, with a hole in the center large enough for the wearer to put his head through. It is made by pouring rubber over unbleached muslin.

**Always There.**  
A New York theatrical man is advertising for the most beautiful woman in the world, as if every musical show press agent didn't claim that she was in the front row of the chorus.—Detroit Free Press.

**Motor Car Jumps Three Feet.**  
A motor car with six occupants dashed up to a drawbridge at Haddiscoe, Norfolk, just as it was being closed, and safely leaped across a space of three feet between the two leaves.—London Mail.

**Proof to the Contrary.**  
"I understand that a number of women have learned to smoke cigars," said the frivolous observer. "I don't believe it," replied Mr. Meekton. "The kind of cigars women buy nobody could smoke."

**To Remove Varnish.**  
Three tablespoonfuls of baking soda in a quart of water, applied with a rough cloth, will remove the old varnish very easily when you wish to revarnish furniture.—Woman's Home Companion.

**Whale Cast on Coast.**  
A whale, weighing five tons, was buried recently on the Berwickshire (Scotland) coast. The monster had evidently been run down by a steamer, and was cast up by the tide.

**Book Annoyed Him.**  
"Oh, please do away with that book!" was the remark of a man to the bench, when the conviction book was produced to show that it was his fifty-sixth appearance in court.

**Off the Wire.**  
Operator—"Number, please?" "Subscriber—"I was talking with my husband and now I don't hear him any more. You must of pushed him off de wire."—Milwaukee News.

**Shallow of Intellect.**  
Some men are very interesting for a first interview, but after that they are exhausted and run out.—Charles Caleb Colton.

**Preserving Carpenters' Tools.**  
To keep tools from rusting, place a sponge moistened with coal oil in the tool chest.

**Man of No Force.**  
He makes no friend who never made a foe.—Tennyson.

# CHARLEROI WINS ONE GAME; TIES ANOTHER; BOTH GO 11 INNINGS

## ROLL SCORES TWO RUNS IN FINAL COMBAT

**Humphries Pitches Great Ball Against Braddock Independents**

**Afternoon Game.**  
William Roll, a distinguished young man hailing from Pittsburgh and not sorry of the fact, was the most conspicuous personage in the afternoon baseball combat at the ball grounds Friday afternoon. Inasmuch as the said William tallied both runs for Charleroi—they only got two—it might be adjudged that he won the game. He did with the able assistance of eight others, including Willis Humphries. The affair went eleven innings and looked when Roll got to third base on his last round as though it was going to go about double that amount. Roll's speed on bases with Haywood's scratchy single was what did the damage to Braddock.

Charleroi scored the first run of the afternoon game in the fourth inning. Roll cracked out a two bagger. Guder fired out and Haywood went down at first. Miller hit to short. When the short stop heaved wildly towards first Roll came in.

Braddock scored their lone tally in the fifth inning. Rettger got a walk and on a single of Swaney's went to third. He scored on a sacrifice fly.

Thus the score stood until the last half of the eleventh. Then Roll, second up, tapped out a single between short and second. Guder created disappointment by making the second out. Haywood looked determined when he came to bat. He hit into the infield and scampered for first. There was somewhat of a muss up over the ball, and Roll kept going past second to third. While the Braddock fellows were running about like wild folks are generally supposed to run about Roll dug for home and made the bag with a final jump that beat the ball hardly any. It was enough though and won the game.

Pat Swaney who was with Bill Phillips when Indianapolis trained out here last spring pitched good ball for Braddock, but on the whole did not do as well as Willis Humphries who kept a masterly hand on the situation on all times. The score:

	R	H	P	A	E
Charleroi	2	9	33	8	2
Braddock	1	3	2	1	0
Paul, 3	0	1	4	0	0
Phalan, s	0	0	1	4	1

## HOME RUN SAVES DEFEAT IN THE MORNING GAME

**Fast Playing in Ninth Inning Results in Score Being Tied Up**

**Morning Game.**  
Charleroi and Braddock fought eleven innings to an indecision in the morning game on the Fourth over at the ball ground. A lot of things characterized the affair. Three pitchers were used by Manager Mathers, Sutherland, Osborne and Willis Humphries. Sutherland retired in the sixth when the folks from the down river steel town got their eye on his shoots. "Rube" Osborne relieved him. What he did to the crowd was a plenty for three innings. Not a hit was made off his delivery and he struck out five of the nine men who faced him.

Where Humphries was used was in the ninth inning, when the score was 6 to 4 in favor of Braddock. The lad who was good enough a year ago for Pittsburgh was sent in to bat for Osborne. Courtley had previously won a base on balls. What Willis did to the ball is still being related around the camp fires of the local fans. He connected with the second ball pitched and hit it clean over the left fielder's head to the fence. It was a beauty of a homer and tied the score.

The game had to be called in the eleventh to allow the players a chance to get a little something to eat to get back to the grounds in time for the afternoon struggle.

In the morning game there were a number of features. Roll was a star, and Haywood pulled off one or two plays very much out of the ordinary. Urban was on the receiving end of a couple of great ones, and Coatsworth, the new first baseman from California made all kinds of friends. The fielders were right there with the goods and so was the catcher, one William Courtley, Jr., hailing from Dunlevy and proud of it. And so are we proud. The score:

	R	H	P	A	E
Charleroi	2	9	33	8	2
Mathers m	0	1	1	0	1
Urban, s	0	1	1	4	1
Roll, 3	0	2	0	3	0
Guder, r	0	1	1	0	0
Haywood, 2	0	2	4	0	0
Miller, 1	0	0	3	0	0
Coatsworth, 1	0	1	0	8	1
Roll, 3	0	1	0	8	1
Courtley, c	0	1	0	18	1
Sutherland, p	0	1	0	0	0
Osborne, p	0	0	0	0	0
Humphries, p	0	1	0	0	0
Total	6	9	33	12	2

	R	H	P	A	E

Swaney, p	0	1	0	4	0
Total	1	7	32	15	1

Two out when winning run was scored.  
Charleroi .00010000001-2  
Braddock .00001000000-1  
Two base hits—Paul, Verosky, Roll, Haywood. Stolen bases—Urban, Coatsworth, Paul, Coulson. Double plays—Coatsworth to Roll, Phalan to Verosky. Struck out—By Humphries 11, by Swaney 4. Bases on balls—Off Humphries 3, off Swaney 2. Umpire—Kearnes.

**Notice.**  
The North Charleroi school board will receive bids for 2000 bushel of coal more or less to be delivered in school building. All bids to be in before 7 p. m. July 15, 1913.  
Yours Respectfully,  
S. W. Sharpneck, Secy.  
J-5-7-9-12

Floyd Chalfant, city editor of the Mail and Warren Kinder are in Pittsburgh today attending the eisteddfod. Mr. Kinder takes part in one of the choruses.

From county detective to brewery manager. Well, that's not so bad either.

# Light, Heat, Power Three Millions at Your Disposal

The West Penn Electric Company, in order to supply light, heat and power, day and night, continuously, to its consumers has invested three millions of dollars in its Connellsville Power Station. This investment was made to serve every person in this community, whether the need be for one light or one thousand, one horse power of ten thousand. This source of electric energy will soon be supplemented by a mammoth Hydro-Electric Station, one of the largest in the East, with a capacity which far exceeds the estimated power requirements of this community for years to come.

## A Rate of Reliable Service

Duplicate machinery and protective devices insure a minimum of interruptions to our service. Fifty Thousand Dollars was spent during the past year for protection against lighting alone. Every precaution known to science has been taken to protect you against inconvenience by reason of the failure of our service.

As a result, West Penn Service is reliable and can be depended upon. It is always here, ready to light your home, or store, or turn the wheels of your factory, the moment the switch is thrown in.

That tells the whole story of West Penn Supremacy in the Western Pennsylvania field.

## Rates lower than others can quote

West Penn Rates compare favorably with those quoted by the Niagara Falls plants, where power is cheaply generated from the tremendous force of the greatest of water falls.

Our rates are and always have been reasonable. They are the lowest that can be given consistent with good, reliable service. That is why mines and mills in this territory are discarding individual power stations and using West Penn Service.

Our rates are lowest whether your need is small or great. West Penn Service is at the command of the smallest home or the greatest corporation.

We invite inquiries as to the cost of our service for any purpose.

# The West Penn Electric Co.

## BENTLEYVILLE STREET CAR LINE IS OPENED

**First Car Is Run Thursday With Due Ceremony**

**LOCAL MAN RINGS BELL**

**Small Party from Charleroi on Hand to Witness Formalities**

Bentleyville is now on the trolley map of Western Pennsylvania. This auspicious event formally materialized Thursday afternoon, when the officials of the Westside Street Railway company made a tour of inspection in a new trolley car over the completed section of the line running from Weaver Station through Bentleyville to Ellsworth, on the projected connection from Charleroi, and that section was opened for traffic that evening. It was in operation all day during the Fourth and did a thriving traffic between Bentleyville and Ellsworth. It will continue permanently.

Under the auspices of Supt. D. G. Callahan a number of invited guests were in the car when it made its official tour that marked the formal opening of that end of the line. In the company were Burgess Johnston and some of the councilmen of Bentleyville, J. J. Holt, John C. McKean, John Jenkins, Henry Sheetz and others from Charleroi. The Charleroi party went out in automobiles and boarded the official car at Bentleyville.

The car was run along the completed section of the line, which at present is about three miles and a half. The regular route of the traffic will be between Weaver Station, which is at the Acme mine, this side of Bentleyville, and through the latter place to Ellsworth. There is a large population in this territory and the passenger traffic is expected to be large. One car will be used in this traffic for the present, but more will be installed later if needed. The car was shipped in by rail, and was manned by a regular crew from off this end of the line for the regular traffic.

The people of Bentleyville and Ellsworth are highly elated over the opening of the line between the two towns. According to the terms of the Bentleyville franchise cars were to be running by August 5, but Supt. Callahan is fully a month ahead of the contract. The line was constructed by the company under direction of Supt. Callahan, who did some energetic work in order to get the line in operation by the Fourth. The Bentleyville end included some heavy construction work. In the section was a 10 foot cut 500 feet long containing over 3,000 cubic yards of earth, and a bridge 400 feet long. This latter structure is one of the best street railway bridges in this section of the state. It has a steel girder under each rail, and is built for double track. It is big and strong enough for a steam railroad.

During the tour of inspection John Jenkins had the honor of ringing up the first fares. Handing a dollar bill to Supt. Callahan, Mr. Jenkins proceeded to ring up that number of fares on the indicator. Supt. Callahan announced that he would have the bill framed, as a souvenir.

As previously stated the Parsons Construction company is at work on a contract for grading the heaviest part of the work between Charleroi

## Are Settling Death Claims

**Monongahela River Consolidated Coal and Coke Co.**

**Paying for Disaster**

Representatives of the Monongahela River Consolidated Coal and Coke company, which owns and operates the Cincinnati mine at Courtney where on April 26 occurred an explosion resulted in the death of 97, are settling death claims with the legal heirs. The company it is stated is paying the widows with families \$2,000. The scale runs from this amount down to \$500. Miners are assisting through a relief organization that was maintained and much outside money has been contributed.

## RIVER CLAIMS VICTIM

**Man in Swimming at California Watched Go Down**

**WAS A GOOD SWIMMER**

Thinking he was simply playing tricks on them friends of Anthony Kaufage, a Pole about 40 years old was permitted to drown in the river at California on the afternoon of the Fourth. Kaufage was a good swimmer, and when he went down three times his friends only laughed.

A party had gone in swimming in the river not far from the railroad station at California. Kaufage struck for the middle of the river and got out there easily enough while the others sported themselves nearer the shore.

He turned to come back. Then suddenly he was seen to sink from sight. Evidently he had done that sort of thing before and his friends thought it a good joke and laughed. Soon his head bobbed from the water, and down he went again. Again his friends laughed and again the performance was repeated. Pretty soon the search of his body started.

The body was recovered this morning and taken to a morgue. Kaufage was married and leaves a widow in the old country. He was a Palander.

and Bentleyville. The Westside company is also grading the Charleroi end along Maple Creek. Supt. Callahan stated that he expected to be able to hook up with the Parsons Construction company's work in the space of about 45 days. The company has opened a fine lime stone quarry just below Weaver Station and has installed a crusher which will deliver 18 tons of crushed ballast a day.

The work is being pushed along as rapidly as possible and another year will witness through and complete transportation between Charleroi, Bentleyville and Ellsworth.

## CHARLEROI QUIETLY OBSERVES THE FOURTH

**Residents Enjoy Day and Do It in Safe and Sane Manner—Ball Games and Playgrounds Program Features**

Unostentatiously, even quietly, Charleroi observed the Fourth of July. There was no special celebration here to enliven the occasion, and folks were on the whole just as happy without it. The day was too warm for a celebration and the observance was generally speaking just as fully enjoyed as though there had been an elaborate program.

The one day's vacation was spent in a variety of ways by Charleroi people. Eldora park was near and scores sought shelter from the boiling hot sun by going there. Brownsville had a big celebration and there were many attracted there. Locally there were two big ball games and a playgrounds program in the afternoon and in the evening.

In the evening fireworks displays were set off by individuals for the enjoyment of the children—always for the enjoyment of the children. At Eldora park there was a big display. Charleroi people partly because of the estedford in progress there. Picnic parties went out early in the morning to groves near town and far from town to spend the day and did not return until late at night.

Owing to the careful watch maintained on the sale and use of fireworks and the efforts for a safe and sane Fourth, few injuries were reported. None of any consequence were made known. There was some regular Independence Day music made by the juvenile population but that was all.

## AUTOISTS HAVE MISCONCEPTION OF NEW LAW

A curious mistake in regard to the proposed new automobile registration law has caused the State Highway Department's automobile registration division at Harrisburg to be flooded with letters containing applications and checks for new automobile licenses. An impression seems to have gotten abroad that the Buckman act which changes the fees and prescribes new regulations, has become a law. The bill which went through the Legislature in the closing days in the form of a conference report, has not yet been approved by the Governor. If it had been signed it would not be effective until 1914.

The officers of the automobile division have been sending back checks with letters explaining that there is no new law just at this time.

The registration of cars has gone up to 70,000 and the revenue from that source now amounts to \$736,460.

## POET BARNARD ADDRESSES BIG CROWD AT PARK

"Child Labor" and "Womanhood" were the particular points that William Francis Barnard, author, orator and poet touched upon in a lecture given at Eldora Park on the afternoon of the Fourth. A large crowd listened to his learned treatise. Mr. Barnard told of the wrongs in connection with child labor and argued that woman be given what he termed her proper rights. Mr. Barnard is well known as one of America's foremost authors and poets. Among his writings are two volumes of poems "The Moods of Life" and "The Tongues of Teal." He recited some of his poems.

Born—To Mr. and Mrs. R. F. Elliott, a son.

A good show every day at the Star. Come and we will convince you. 283-H

## ACCIDENTS HAPPEN TO TWO TEAMS

Two accidents occurred to teams Thursday evening that resulted in some injury to horses and damage to vehicles. A team of S. T. Franks, the Second street grocer turned down Fourth street from Lincoln avenue at about 6:30 o'clock and dashed madly down Fourth street. The wagon overturned, but the driver "Bob" Coulter stuck to his lines and the team was controlled at McKean avenue. He was not hurt and the horses did not suffer, but the wagon was splintered somewhat.

A team of J. W. Latchem's and an automobile driven by a Monessen man collided on the new road and one of the horses had an eye punched out. It was otherwise injured and the other horse was scratched some. The automobile showed effects of the collision parts of the front equipment being broken and torn.

## MANY JUDGESHIP ELECTIONS COME UNDER NEW LAW

If the nonpartisan ballot law applying to judges becomes a law through the signature of Governor John E. Tener at least twenty judgeships of common pleas and four of orphan court will be voted for in that manner says the Harrisburg Telegraph. Thirteen counties will elect common pleas judges, including those in which judges were appointed by the Governor to serve another year because the constitutional amendment of 1909, abolished such elections except in odd numbered years and three will elect orphan court judges. The ballot would also effect county or municipal court judges in case of elections being held.

The counties that would be affected in common pleas judicial elections are Philadelphia where six new judges have just been appointed and the terms of two will expire; Allegheny, Bucks, Dauphin, Clearfield, Clarion, Lehigh, Potter, Carbon, Lackawanna Butler and the Monroe-Pike district.

Counties where orphan court judges are to be elected are Allegheny, where two will be chosen, Berks and Lackawanna.

## CELEBRATION IS HELD AT THE PLAYGROUND

**Will Discuss Union Picnic**

**Adult Federated Classes Will Take Up Proposal At Sunday Meeting**

The feasibility of holding a union Sunday school picnic will be discussed on Sunday afternoon at 3 o'clock at the First Presbyterian church by the Adult Federated Bible classes. Delegate will be appointed in the morning at the various Sunday schools to attend the meeting. If a picnic is held the probabilities are it will go to Eldora Park. There is said to be much sentiment in favor of a union picnic. Reports will be heard from local committees that had to do with the recent Sunday school convention.

## 7,000 AT ELDORA ON FOURTH

**One of Biggest Days In Park's History Is Enjoyed**

**GOOD ENTERTAINMENT**

Capacity crowds were entertained at Eldora Park on the Fourth. With everything in the very best of running shape the day was a particularly enjoyable one for the 6,000 or 7,000 who visited the park from all along the valley. Every amusement place was taxed to its utmost and extra workmen were required to assist the regular park employees in caring for the people.

The chief feature of the afternoon was dancing. The dancing pavilion was somewhat crowded but that made the dancing all the more enjoyable. Many from nearby towns took their dinners and suppers and stayed all day.

In the evening at 9 o'clock a fireworks display was set off that was meritorious. The display consisted principally of aerial pieces.

Never was the park in better shape for handling a crowd than it was on Friday and never was a crowd handled in a more delightful way. This was owing to the care taken. All week preceding Friday men were engaged at the park getting things in readiness for the big day and when the people began streaming in everything was perfect. As in the afternoon dancing proved a feature in the evening.

**Information Wanted.**

Of Walter Sovinske, 11 years old of Monessen, who was sent to the meat market June 21, and has not been seen since. The lad was barefooted and wore a light shirt, a black vest, cap and dark striped pants. Address all information to his father, Pete Sovinske, 199 Oneida street, Monessen, Pa.

**Baby Show Is a Feature of Affair and Judges Get Chased**

**GOOD ATHLETIC SPORT**

**Boys and Girls Participate In Many Lively Contests for Prizes**

The Fourth of July was celebrated at the playgrounds by special games of sports given by the boys and girls under the direction of Earl Ames, instructor for the boys and Miss Bertha Charles instructor for the girls. They engaged in contests largely of races and athletic events that was not all. As planned a day was made a visiting day for boys and large numbers wended their way there in afternoon and evening refreshments were served from stands and a neat sum was realized on the work at the playground.

One of the chief features of the day was the baby show at night. A number of babies were entered in this contest which proved to be interesting. It also ended by some of judges being chased from the field by women who thought they did know good looking babies when they saw them. And they were making a bet that had seen the looking babies in the world before. The baby show first prize was awarded to Evelyn Brandt, the daughter of Mr. and Mrs. Joseph Brand and second prize went to Mary Rich, the daughter of Mr. and Mrs. C. Richards.

The judges for the baby contest were: T. J. Allen, W. Y. Brady, F. C. Stahman, L. R. Blythe, John Lutes.

Results of the races of the afternoon were:

**Boys Races.**  
Marathon for boys under 18, by James; second James Lehigh.  
Marathon for boys over 18, by John Dean; second Thomas Holm.  
Potato race, won by Joseph Fillerham; second, George Wagner.  
100 yard dash, won by Thomas Brown; second, William Davis.  
50 yard dash for boys over 10, by James Oates; second, George Wagner.  
50 yard dash for boys under 10, won by Paul Wagner; second, LeBezell.

Hurdle race won by John DeBezell; second, Darsille Lee.

**Girls Races.**  
100 yard dash, won by Viola Wilson; second, Augusta Pelzer.  
Egg race, won by Louise Brand; second Yvonne Parmentier.  
Candle race, won by Louise Brand; second, Viola Wilson.  
Potato race, won by August Pelzer; second, Viola Wilson.  
50 yard dash, won by Carrie R. second, Eleanor Mogan.

**Motor Cyclist Hurt.**

Johnson Noble, pathfinder of motor cycle race from Uniontown Brownsville on the Fourth was fully and seriously hurt on the Fourth when he lost control of his machine coming down the Brownsville hill dashed headlong into a mail box, face was badly cut. He is well known in this vicinity.

J. K. Tener, Pres. S. A. Walton, Vice Pres. R. H. Ensh, Cashier.

NO REGRETS.  
The observance of the Fourth of  
July so far as Charleroi is concerned,  
carries with it no regrets. There was  
no public demonstration, which is  
after all of questionable advantage  
to a community, and consequently no  
big expenditure of money to be in-  
variably regretted later on when the  
ephemeral results are realized. Busi-  
ness and industry was generally sus-  
tained, leaving the people free to  
observe the holiday according to  
their individual inclinations. Local  
amusements and recreation were  
available, and money was spent free-  
ly in carrying out the spirit of the  
day in accordance with individual  
astes and desires. In addition there  
were no serious accidents or casual-  
ties reported to mar the pleasure of  
the holiday.

After all this is a more profitable  
way to observe the Fourth than in  
the frenzied way of a public demon-  
stration. The latter always costs  
more than it comes to, and gets the  
community nothing permanent. The  
safe and sane observance carries  
with it no regrets, and really cir-  
culate more money where it will do  
the most good.

ONE OF THE CERTAINTIES.  
The connection of Charleroi with  
the populous Bentleyville and Ellis-  
burgh district by trolley is now one  
of the certainties in the line of in-  
dustrial developments that will add to  
the prestige and standing of the Mon-  
c City. The work of construction has  
now reached a stage where comple-  
tion is but a question of time and all  
the advantages that will accrue to this  
achievement are near at hand.

Not only will two populous trading  
communities be united by the com-  
pletion of this trolley line, but a big  
agricultural district will be put with-  
in reach of quick and easy trans-  
portation. The trolley line will also  
open new possibilities in farming and  
gardenng work with so great a mar-  
ket at Charleroi affords cannot help  
but aid materially to the production  
of food products so badly needed  
in this section. Whatever develop-  
ment may be in store for Charleroi  
in the future, the connection with the Ben-  
tleyville and Ellisburgh district is cer-  
tainly one of the certainties in the  
line of industrial developments that  
will add to the prestige and standing  
of the Monongahela City.

PICKED UP IN PASSING

A young man who formerly lived  
in Charleroi but is now engaged in  
the offices of the Jones & Laughlin  
company at Woodlawn, tells how a  
time keeper there designates the num-  
bers of foreigners with unpronounceable  
names. While the most of the foreign-  
ers can be readily designated by their  
names, there are a few that are puzz-  
lers, and these the timekeeper desig-  
nates to suit himself.

Being an ardent baseball fan the  
timekeeper gives names of baseball  
stars and magnates to the workers  
with unwriteable and unpronounceable  
names. To a stockily built Slav with  
a square jaw and a name that would  
include all the letters of the alpha-  
bet, the cognomen "Mugsy" McGraw  
appears on the pay roll. A dapper  
Italian with a curled mustache is out  
down as Barney Dreyfuss. Then  
there is of course a Honus Wagner,  
Marty O'Toole, a Ty Cobb and a  
way of other stars of the baseball  
firmament, all belowed to suit some  
characteristic trait.

The foreigners, who are called by  
these titles, have entered into the  
spirit of the situation," says the nar-  
rator, "and their interpretation of  
the names is as comical as our at-  
tempts to distinguish them by their  
baptismal appellations. For instance,  
Marty O'Toole, which is borne by an  
Italian, becomes Marti O'Tooli, and  
Honus Wagner is Honuss Wagner-  
ski to the Polisher who bears the title.  
The foreigners themselves, as  
well as the timekeeper, are getting a  
lot of fun out of the titles."

"What I call the irony of fate is to  
have a big head the morning after the  
Fourth when you did nothing to get  
it," said a young fellow who report-  
ed for work this morning looking the  
part. "Here I am with a raging  
headache, when I took extra pains  
yesterday to avoid one. I sat in the  
shade all day at home on the hill, did  
not shoot a firecracker, take a drink  
or eat anything unusual. Yet I've  
got all the symptoms of the morning  
after the night before."

"This sort of thing has happened to  
me a number of times, so that I'm  
now perilously near the point where  
I'm tempted to throw moral and phys-  
ical restraints aside and say, 'What's  
the Use?'"

ELECTRIC SPARKS

A Boston pastor says it is blind-  
fold for the men or veils for the women.  
Lady Constance, with her favored  
costume of beads, may now be ex-  
pected to announce herself more vig-  
orously than ever in favor of no dress  
at all.

Most any kind of a shower is more  
pleasing to a girl than a spring show-  
er.

Veterans that retreated from  
Gettysburg when the big encampment  
was about half over, could not have  
been induced to have retreated 50  
years ago from there.

It will not take many more re-  
unions to do away with all the old  
soldiers.

From policeman to lobbyist is the  
record of an Ohian. What an ad-  
vertisement that would make for a  
correspondence school.

It begins to look as though Wood-  
row and his family were going to  
weave over "13" and make it a  
lucky number.

According to rumor, it will be a safe  
and sane Fourth in the county jail.

Gov. Sulzer has been sued for  
breach of promise by a girl. It was  
generally recognized that he was a  
pretty well known, but until this  
episode it was known that he was  
famous.

The principal of the thing is just  
the same. If they refuse to permit  
actual pictures of a nude woman to  
be shown in an art gallery, they should  
not permit cubist alleged pictures  
labeled nude to be shown there either.

The Democrats were told they could  
not act right when they got charge  
of the government. They wanted the  
spoils and now they have so many  
they don't know what to do with  
them.

See the show at the Star today.  
It is fine.

GOOD PREMIUM

LIST ANNOUNCED  
FOR COUNTY FAIR

Ten thousand dollars in premiums  
for livestock, farm and household pro-  
ducts is the enormous offering of the  
Washington Fair association this  
year. This sets a new standard for  
Western Pennsylvania fairs and will  
undoubtedly bring out the greatest  
livestock and farm show ever seen in  
this part of the country.

What kind of livestock show the  
Washington fair will have this fall  
may be judged when it is known  
that the association offers approxi-  
mately \$2,000 for horses, \$2,500 for  
cattle, \$1,200 for sheep and \$800 for  
swine. The premiums for fruits,  
grains and vegetables and all the de-  
partments for household products  
covering the hall exhibits are on an  
equally lavish scale and largely in  
excess of anything ever offered be-  
fore. The poultry show which was a  
great success last year will offer  
premiums just double those of the  
last exhibition, totaling almost \$2,500.

What is expected to be the biggest  
single feature of the 1913 fair will  
be the grange exhibits. The first  
grange show was made last year.  
Washington, Amwell and Hopewell  
granges competing. Last year the  
premium was \$10 offered by the as-  
sociation in conjunction with a simi-  
lar amount offered by the Pomona  
grange. This year the association  
has offered \$100 for grange competi-  
tion and it is expected to bring out  
the biggest agricultural show ever  
seen in Washington county.

AFFAIRS QUIET  
ON THE FOURTH

Affairs were very quiet in Charleroi  
on the Fourth. Only five arrests were  
made by the police. These were all  
for drunkenness. The story is prac-  
tically the same all over the country.

Wise Precaution.  
Shopper—I want to buy a necktie  
suitable for my husband. Salesman—  
Sorry, madam, but we are not per-  
mitted to sell neckties to women who  
are unaccompanied by men.—Puck.

Big Sculpture

The most remarkable proposal ever  
made about Mount Athos was that of  
the architect Dinocrates. His plan  
was to cut it into the shape of a gi-  
gantic statue of Alexander the Great,  
holding in the right hand a city, in  
the left a tank that was to receive all  
the waters of the region. Alexander  
was much taken with the scheme. But  
it was eventually rejected on the  
ground that the neighboring country  
was not fertile enough to feed the in-  
habitants of the projected city. An-  
other of Dinocrates' plans was a tem-  
ple to the wife of King Ptolemy of  
Egypt, with a roof of loadstones that  
would keep an iron statue of her float-  
ing in the air.

Toe the Mark!

Start off right and cam-  
paign for new  
business.

ADVERTISE

the late J. P. Morgan once said:

AMONG THE CHURCHES

Washington Avenue Presbyterian.  
Sermon at 11. Sermon, "Learning God's Se-  
crets." C. E. at 7. Topic, "The Ideal  
Christian's Courage." Leader, John  
Jobe. Preaching at 8. Sermon, "A  
Queen Who Did Her Duty." Stran-  
gers and those without a church home  
are cordially invited to worship with  
us. Rev. John R. Burson, pastor.

Baptist.  
Sunday school at 9:45. Public wor-  
ship at 11, with sermon by the pas-  
tor. Subject, "The Providence of  
God." Ordinance of the Lord's supper.  
Young People's meeting at 6:45. Visi-  
tors and strangers will be cordially  
welcomed. Rev. E. G. Stanley, pastor.

Lutheran.  
Sunday school at 9:45. Holy com-  
munion administered at 11. Vesper  
services with sermon at 7:30. Sub-  
ject, "Reaffirmation of the Doctrine."  
Holy communion will be continued at  
the evening service. A cordial in-  
vitation is extended to the public to at-  
tend all services. Rev. C. P. Bastian,  
pastor.

St. Mary's Episcopal.  
C. W. Smith and L. L. Lusk. Sunday  
school and Bible classes at 9:45. An-  
te-communion service, sermon and  
celebration of the holy communion at  
11. Subject of discourse, "Religious  
Meditation." Evening prayer and  
address at 7:30. Subject, "The Con-  
summation of a Good Conscience."  
The Sunday school of St. Mary's  
church will hold their annual picnic  
Wednesday, July 9 at Eldora Park.  
A special car will leave corner of  
McKean and Sixth street at 9:30.  
All are cordially invited. Rev. Lu-  
cius W. Shey, rector.

First Presbyterian.  
Sunday school 9:45. Communion  
service at 11. Reception of new  
members and baptism of children.  
St. C. E. at 6:30. Evening service,  
which during the summer months  
will be of 59 minutes duration at  
7:30. The benefit offering is for  
the board of church erection. All are  
welcome. Rev. J. T. Hackett, pastor.

Methodist.  
Combination service church and  
Sunday school at 10:30. Epworth  
League at 6:45. Public worship at  
1:45. Everybody welcome. Rev. F.  
A. Richards, minister.

First Christian.  
Bible school at 9:45. Preaching  
and Lord's supper at 10:45. Subject  
"Blessed Peace." Junior Christian  
Enterprise at 8. Senior Christian En-  
deavor at 5. Subject, "The Ideal  
Christian's Courage." Evening wor-  
ship at 8. Subject, "Sharing Bur-  
dens." All services will be shorten-  
ed during the summer months. Wed-  
nesday prayer meeting at 7:45. All  
strangers to our city are cordially in-  
vited to attend all of our services at  
the downtown church. This is the  
people's church. Come. Rev. E. N.  
Duffy, pastor.

To Make Hatpins Safe.  
While the many victims in all parts  
of the country of the woman's hatpin  
may no longer take much interest in  
the matter, those of us who have so  
far escaped injury will be glad to  
hear of the invention of a hatpin  
guard. With all that has been done  
by women's clubs and other agencies  
to denounce the use of the long hat-  
pin, with all the laws and local regu-  
lations against it, and despite the con-  
tinuing recurrence of accidents—fre-  
quently as serious as the loss of an  
eye—the hatpin is still popular, and  
women persist in wearing them in  
crowded street cars and theaters and  
similar places, where they are most  
dangerous. But if they cannot be  
abolished by law, perhaps it will be  
possible to enforce the covering of  
their points. That is what this hatpin  
guard does. It is simple, easy to put  
on or off, and quite inconspicuous. As  
seen from the accompanying illustra-  
tion, it consists of a little knob on the  
end of a hollow cylinder, which slips  
over the point of the pin and holds  
fast by a spring. The inventor of this  
device is Louis Lasson, the pian-  
ist, of this city, who says he was  
moved to think of the matter by read-  
ing of the many serious accidents  
caused by the hatpin.

Little Doubt About It.  
Married a month, a young man told  
the magistrate that his wife had done  
the following things: Turn up the  
marriage certificate, pawned the ring,  
torn up her wedding dress, assaulted  
him, she followed him to work, he  
added, but he managed to dodge her.  
The Clerk: "You took her for better  
or worse, and you seem to have got  
the worse."

Specialists Recommend Yawning.  
In the opinion of learned specialists  
no one can be healthy unless he oc-  
casionally takes a certain amount of yawning.  
When you yawn you expel from the  
lungs a lot of superfluous air; the  
breathing muscles of both the chest  
and the throat are strengthened by

NOTHING OF DIGNITY

STRENUOUS HORSE-PLAY A MARK  
OF THE HOLI FESTIVAL

Traveler in India Describes Peculiar  
Methods of Making Merry in  
Which Native Ruler and  
His Suite Indulge.

A curious childish horseplay of the  
Holi festival, which is celebrated an-  
nually by the maharajah of Patiala,  
is described by Mr. Charles Ber-  
tram.  
Early in the morning I went to the  
club, where I found many of the guests,  
who were taking part in the cere-  
mony for the first time. We were  
provided with a complete new suit  
of Hindu garments and our dressing  
was superintended by the maharajah's  
servants. We had camels, elephants  
and victorias provided for us. I  
was on an elephant in a kind of box,  
and we drove in procession to the  
palace in the native city.  
We were received with great ap-  
plause by the natives, and I was led  
to believe that it was to be decidedly  
a dignified occasion; but I was wo-  
efully mistaken. The fun had not  
begun. Certain formalities had to  
be gone through before the signal was  
given.

We took our seats in the courtyard  
of the palace, at a long table that  
was loaded with large gilt dishes filled  
with different colored balls as large  
as oranges and filled with Holi pow-  
der. At a signal the brother of the  
maharajah came to the front of the  
table and salaamed to the prince, who  
took one of the balls and threw it  
gently across the table, striking the  
officer on the breast.

The ball broke and scattered the  
powder over his costume. Then there  
was a general scramble, and in less  
time than it takes to write, hundreds  
of balls were flying about, their many  
colored contents scattered broadcast  
on the crowd. Next baskets of loose  
powder were thrown upon us in  
handfuls.

It was no use to expostulate; the  
moment you opened your mouth some-  
body filled it with powder. The bat-  
tle grew fast and furious, when sud-  
denly an enormous stream of water  
from a fire engine drenched every-  
body. The colored powder became wet,  
and mingling together, dyed us all in  
brilliant variegated hues.

After this sort of thing had gone  
on for half an hour it ceased by mu-  
tual consent, and we returned to the  
private gardens of the maharajah,  
where we were most unceremoniously  
pitched into a tank of running water.  
I was dyed a deep scarlet all over my  
body, and it was fully a month before  
the color entirely disappeared from  
my face and hands.—Youth's Com-  
panion.

The Value of Trying.  
If a man constantly aspires, is he  
not elevated? Did ever a man try  
heroism, magnanimity, truth, sincer-  
ity, and find that there was no advan-  
tage in them? That it was a vain en-  
deavor?—Thoreau.

Impossible.  
"A person should think twice be-  
fore speaking." "Perhaps so, but if

TRAINED IN HOUSEHOLD WORK

German Institution Teaches Girls  
Domestic Service, and Finds Great  
Demand for Graduates.

Berlin has an institution, founded  
about two years ago by a woman.  
The object of the "Sister School," as  
it is called, is to train well-educated  
girls for domestic service. The stu-  
dents are generally daughters of pro-  
fessional men, and the curriculum  
comprises cookery, housework, the  
care of children, and needlework.  
When application is made for the ser-  
vices of a "sister," the matron, or  
some other woman connected with  
the school, calls upon the applicant,  
forms an opinion of the "situation,"  
and arranges terms. Each "sister"  
must be allowed a free afternoon  
every week, one Sunday every other  
week from four o'clock, and a forty-  
night's holiday in the year. Six  
weeks' notice is required on each part.  
The salaries paid range from \$7.50  
to \$12.50 a month, with, of course,  
board and lodging. Sisters wear a  
brown uniform, are treated as social  
equals, are not required to take  
lessons with their employers, and are ad-  
dressed as "Sister Marie," "Sister  
Hedwig," etc. The demand for their  
services is so great that the head of  
the Sister school declares that she  
could place 500 girls a year, instead of  
50, and similar institutions are about  
to be established in other German  
towns.

MAKE WAREHOUSE OF CHURCH

Sacred Edifice at Brighton, England,  
Has Been Unfortunate Since  
Its Erection.

To serve as a cold storage ware-  
house for meat and eggs—such is the  
fate of the beautiful Church of the  
Resurrection at Brighton, England.  
Built at the expense of the late Rev.  
H. D. Wagner for the accommodation,  
it is said, of the poorer members of  
the congregation, and for those who  
preferred a ritual simpler than that of  
St. Paul's church on West street, this  
building first attracted the public at-  
tention as the subject of a curious law-  
suit. Mr. Wagner planned to build a  
remarkably tall church, and the own-  
ers of the adjoining property, by  
means of a lawsuit, prevented him  
from so doing. Accordingly he caused  
deep excavations to be made, and  
thus secured the desired internal  
height. The Church of the Resurrec-  
tion proved to be a great expense and  
was closed in 1908, being, in the opin-  
ion of the present vicar of St. Paul's,  
no longer necessary for the purpose for  
which it was built. In 1909, after pro-  
longed opposition on the part of Rev.  
E. F. B. Weber, one of the trustees,  
it was sold. Since then it has stood  
empty and in disrepair, until the gro-  
tesque tragedy of its present usage oc-  
curred.—The Churchman.

Tons of Iron Lost in Rust.

One large railroad system suffers a  
loss of more than eighteen tons of  
metal daily, due solely to the effect  
of rust. Thus far the only known  
preventive is to keep the metal sur-  
face always covered with a suitable  
paint. Some idea of the costliness of  
this remedy, however, may be gained  
from the fact that it requires about  
\$10,000 annually to paint one large  
railway bridge alone. A typical case  
of this kind is the Brooklyn bridge,  
upon which a corps of painters are  
constantly employed, as the weather  
makes repainting of one end of this  
large structure necessary before the  
workers have reached the other. Al-  
though experiments have demonstrat-  
ed that pure iron surrounded by oxy-  
gen does not rust, and that some acid,  
especially carbonic acid, is necessary  
for the production of rust, the secret  
of manufacturing rustless steel and  
iron remains to be discovered.

Lasting Joke.

How long will a good joke last?  
Who can tell? You have heard that  
one about the good sleighing in Can-  
ada, and how by putting on a pair of  
pajamas and sitting on a cake of ice  
before an open window and ringing a  
bell one can get the same effect, and  
much cheaper. Billy Emerson, the  
minstrel, originated that one over  
thirty-five years ago, and it is one that  
has never run down. DeWolf Hopper  
began to use it in his curtain speeches  
eleven years ago, and ever since, eight  
times a week forty weeks a season, he  
has used it and it has never failed to  
get a laugh. Always there are some  
in the audience who never heard it.  
Hopper figures that with the addition  
of a few score times at private func-  
tions he has "sprung" the chestnut  
3,753 times. It is his one best bet, he  
says, and expects to use it as long as  
he is in public life.

\$20 Gold Pieces a Quarter Each.

When five boys commenced to sell  
\$10 and \$20 gold pieces on the streets  
of North Scranton for 25 cents each,  
with the supply apparently unlimited,  
curiosity was at once aroused as to  
the source of supply, and the boys were  
taken into custody and given the  
"third degree." When searched the  
youths' pockets produced over \$500 in  
gold coin and when questioned they  
admitted that they had found a "hot  
gold."  
The money was buried in a box in  
the cellar of a house formerly occu-  
pied by Peter J. Scalone, who during  
his lifetime had the reputation of be-  
ing a miser. There were 500 \$20  
shiny gold pieces in the box. The  
boys, some of whom were over eight  
years of age, thought they were brass  
models and sold about twenty of them  
before being arrested.—Scranton (Pa.)  
Herald.

## COMPLICATION OF WOMAN'S ILLS

Yields to Lydia E. Pinkham's Vegetable Compound.

Athens, Texas.—"I had a complication of diseases, some of them of long standing. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound, and some other things that you suggested. I must confess that I am much better in every way and have been relieved of some of the worst troubles. My neighbors say I look younger now than I did fifteen years ago."—Mrs. SARAH R. WHITLEY, Athens, Texas, R. F. D. No. 3, Box 92.

We know of no other medicine which has been so successful in relieving the suffering of women, or received so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In nearly every community you will find women who have been restored to health by this famous medicine. Almost every woman you meet knows of the great good it has been doing among suffering women for the past 30 years.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound, many of them state that it has saved them from surgical operations.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## WAYS OF FRENCH BEGGARS

Select Their Favorite Prison, Then Commit an Offense to Incur Winter Accommodations.

Beggars and professional vagabonds who have passed thirty years do not fail each year when the winds of October blow to select their winter quarters.

It is then that each of them commits some offense, well knowing that he will get a penalty of six months' imprisonment. The delinquent so times his offense that he will not be at liberty until the month of April, in the first warm breezes of spring. He chooses his winter quarters wisely, for he knows the good and bad prisons.

Fresnes, because of its valued and luxurious accommodations, occupies the first rank among prisons. This year the temperature was such as to bring about some true knavery on the part of these beggars and vagabonds. From the month of August they were forced to commit some offense in order to assure themselves a shelter.

So la Sante, the antechamber of Fresnes, was gorged with prisoners for whom the tardy rays of the September sun proved a cruel irony. If the magistrates show clemency and condemn these derelicts to only six months of prison the disaster of these poor devils will be complete, for they will, without pity, be thrown into the street in the open month of January.—le Ori de Paris.

## ARE HANDSOMEST IN WORLD

Royal Irish Constabulary Bear Off the Palm From All Police of the Earth.

According to those most entitled to speak on the comparative pulchritude of the police, the Royal Irish Constabulary bear off the palm from all policemen in all other parts of the world. Dean Hole is quoted in the London Chronicle as contributing the following tribute to the fascinations of the noble Irish force:

"Our London police are well favored in appearance, but if the Royal Irish Constabulary were to take their place for a week there wouldn't be a single female servant to be warranted heart whole in the metropolis."

London goes to the rural districts for its policemen largely, and the result is often as amusing, not to say exasperating, as that which arises in New York from the employment of foreign car conductors. "Blissfully ignorant of city streets and neighborhoods," the Chronicle writer tells of an encounter with an inexperienced policeman who was asked the whereabouts of a famous firm in the neighborhood, to which query the new boy replied gaily:

"Bless ye, I know no more than yourself, sir. I only came up from Dorset yesterday."

## Tea Drinking a Vice?

A foreign critic says: "In hunting a cause for this apparent decadence of the once mighty people (the British), some scientists have had much to say on the subject of tea drinking, for nowhere else is the habit so universal as in the British Isles. Women and children drink tea off and on during the day. Business men have to stop their work at intervals to partake of their tea. And in most instances the brew is exceptionally strong. It has been estimated that each person in Great Britain, on an average, takes a daily dose of 3.6 grains of alkaloid and nearly as much tannin as the maximum allowed by the British pharmacopoeia for an occasional dose. And, of course, many thousands of people drink a great deal more than the average dose."

## Speed of a Bullet.

Experiments with improved instruments for measuring the velocity of projectiles have shown that the speed goes on increasing after the missile has left the mouth of the cannon. Leaving the muzzle with a velocity of 1,474 feet a second, a projectile has been observed to increase its speed to 1,689 feet a second within the first six feet. It is only after having traveled 25 yards that the projectile's velocity becomes reduced to the speed it has on leaving the muzzle. This is ascribed to the impulse of the expanding gas being felt for some distance beyond the cannon's mouth.

## Cheek.

"Cheek" in the sense of 'impudence' is an old term. The earliest quotation in Sir James Murray's dictionary is from Captain Marryat (1840). But it has lately been found in the sixteenth century records of Galway, in the west of Ireland. The municipal rulers of that fighting city—the "men from Galway" has become proverbial for pluck and readiness to defend the hottest of corners—decreed that any person giving "cheek" to the mayor should "forfeit 100 shillings and have his body put into prison."

## Varying Melting Points.

The melting points of various heat-resisting materials have been thus determined by the United States bureau of standards: Fireclay brick, 2,331 to 2,137 degrees Fahrenheit; bauxite brick, 2,341 to 2,245 degrees; chromite brick, 2,772 degrees; magnesia brick, 2,929 degrees; bauxite, 2,300 degrees; chromite, 2,354 degrees; pure alumina, 2,650 degrees; pure silica, 2,125 degrees; silicon carbide, 2,700 degrees; tungsten, 3,628 degrees, but does not melt below 4,000 degrees.

## Thanks to the Cartoonist.

Party emblems that figure on ballots represent the more serious purposes and type the traditions of various political followings; but the emblems that the cartoonists and humorists have established are the more popular, because they represent that cheerful mood in which a majority of persons attack politics without abandoning the earnest aim that underlies its manifestations.—Judge.

## Science and Death.

"Even in the face of the inexorable law of death," says the Lancet, "science still has a consoling message. It can hold out the hope that one day the ravages of disease may so far be eliminated that death will be nothing more than a quiet and painless phenomenon. It will cease to be feared, and come even to be desired as a fitting close to a weary day."

## Watch Built in a Pearl.

A tiny watch, which has been made inside a pearl as large as a big pea, has just been constructed by Gallopini & Co. of Geneva, fifteen months being spent on the work. The empty pearl weighed forty-two grains and in diameter is less than an inch. This pearl watch can be worn on a ring or as a pendant and cost \$6,000.

## Still at it.

"I wonder what has become of my husband. Three days ago I sent him to match a sample at a department store. He hasn't been seen since." "I saw him yesterday. He was at the third counter of the fourteenth aisle, and was just starting for the fourteenth counter of the third aisle."—Washington Herald.

## Caution.

"Shall I empty your wastebasket?" asked the janitor. "It is brimful of correspondence." "No," answered the man who is combining politics with high finance. "Just hand me my bonds and stock certificates and I'll stuff 'em in some pigeonhole so that you can lock the waste-basket in the safe."

## "Costermonger."

Ribbed costard apples, a cooking kind, are now to be seen in the shops. The costard is referred to in the household accounts of Edward I, in whose reign the street seller of the apple was called a costardmonger—hence "costermonger" and "coster."—London Standard.

## Apology.

Conjuror—"Now, sir, you admit that the card you have just taken out of the handkerchief is the queen of clubs, yet the card you chose and securely tied there—namely, the ace of spades—I now produce from this hat." Timid Volunteer—"So sorry—my mistake."—Punch.

## Home Happiness.

Probably nineteen-twentieths of the happiness you will ever have, you will get at home. The independence that comes to a man when his work is over, and the feeling that he has run out of the storm into the quiet harbor of home, where he can rest in peace and with his family, is something real.

## Poetry at the Bottom of the Mug.

"He will work," said a Tottenham (Eng.) constable of a defendant, "if he knows there is a pint of beer at the end of the job." This must have been very much the sort of thing Tennyson had in mind when he wrote "Follow the Gleam."

## To Sterilize Cistern Water.

Cistern water can be thoroughly sterilized by the addition of one-tenth of a grain of hypochloride of lime to the gallon. This does not injure the water for laundry and bathing purposes.

## Precious Attributes.

"Why are diamonds so highly valued?" "I suppose," replied Mr. Groucher, "it's because they are made of carbon, which is the equivalent of coal, and at the same time look like ice."

## Dog Earned His License.

The little fox terrier of L. N. Hanley won for his master a license tag for the killing of 100 rats. The prize was offered, when the canine had killed 80 in two weeks, by a member of the council.—Carlisle Advocate.

## Pity.

A girl who has a steady beau feels the same kind of pity for the girl who sits alone night after night that the boy who can dive has for the one who is afraid to wade in "above his knees."

## As a Precaution.

Get a dozen tiny bells, and every time a bottle of poison is brought into the house tie a bell to the neck. Even in the dark the bell will sound its warning.

## One More Item.

Not that we cannot think of other ways of frittering away money, but some day we hope to be rich enough to afford a "going away coat" for our dog.—Houston Post.

## Cheese Dish.

Swiss cheese can be composed of any ingredients which can be obtained conveniently.—London Globe.

## QUEER FACTS ABOUT MONEY

Average Lifetime of Various Denominations of Paper Currency Differ Considerably.

The average lifetime of the different denominations of United States paper currency differs considerably; that of the \$1 silver certificate, for instance, being a trifle over one year; the \$5 silver certificate, 1.9 years; the \$10 gold certificate, 1.88 years; the \$20 gold certificate, 1.9 years, etc. The number of pieces of United States paper currency in circulation is gradually increasing and numbered 327,329,159 on June 30, 1912. There were 273,426,336 pieces of United States currency redeemed during the same period, which exceeded by 6,218,415 the number of pieces issued the preceding year. The increasing growth in redemptions is due primarily to the growth in business activities, the publicity given to uncleanliness and alleged insanitation of soiled notes, and the consequent demand for cleaner money; the growing practice of payment of wages in factories, shops, etc., weekly and bi-weekly, as compared with monthly payments; the quantity of paper money in sections where silver was formerly in the greatest demand, etc.—Leslie's Weekly.

## UNIQUE EXAMPLE OF LOYALTY

Popular Daughter of Prominent Chinese Official is Married to Large Red Vase.

Not long ago considerable commotion was caused in the Chinese city of Hankow when the attractive and popular daughter of a prominent Chinese official was married with great pomp and ceremony to a large red vase which was supposed to represent a deceased bridegroom who had died a few years before his marriage. Whereupon his grief-stricken bride-elect declared that she would never marry any one else, but would devote herself as a widow for the rest of her life to the family of her husband. In order to do this, however, it was necessary that she should legally belong to that family and so the strange ceremony with the vase was gone through with to enable her to become a member of the family. Since then it has been suggested that an arch should be built in the city in order to commemorate the devotion of the young girl to the husband she never had.

## China Market for Hats.

Men who have wondered what becomes of the large stocks of hats, caps and clothing that remain unsold at the close of each season in this country will be interested to learn that a considerable portion of such stock is disposed of in China, where the men are adopting the dress of their western brothers. The rising generation of Chinese is particularly keen for headgear worn in America, but the styles seen there are always those that were in vogue in this country the year before.

Much of the men's apparel that falls to find a market in this country finds its way to the far east. In a walk through the streets of any Chinese city one sees derbies, fedoras and caps that bear an American label. Most of the caps are of British make because many of the tourists come from London, and in selecting a cap the native has no guide except the headgear he sees on foreigners.

## Coal and the X-Ray.

It is now believed that the mystery of the formation and constitution of coal, which has long puzzled students, will be solved by means of the X-ray. According to a French scientific journal, there are two or three kinds of ash in coals: First, the foreign matter carried by the wind or the rain into the forests that gave rise to the coal. Next there is the mineral matter that forms part of living plants. Finally, there is generally more or less mineral matter due to the formation of new compounds by the decomposition of the first two kinds of ash. The examination of coal with the X-rays will probably lead to a possible distinction between these three forms of ash, and will thus contribute to throw light on the formation of veins.

## Bottle-Fed Fruit.

Bottle feeding is the latest wrinkle in the growing of the enormous winter hothouse fruit, and it has increased the fruit's size and sweetness 30 or 40 per cent. Peaches and pears are like pumpkins; grapes and strawberries like apples.

When a peach or a pear is young and green and hard, the gardeners pass through it a needle and thread of coarse cotton, leaving both thread ends sticking out. He does this till eight or ten ends are obtained. These ends he puts into bottles of sugar and water syrup, and the syrup, flowing along the cotton, is absorbed by the fruit, sucked up by it—sucked up as babes suck up milk—the fruit, in a word, is bottle-fed.

## Arguing It Out.

"The horse is anxious to go to the mobile at every point." "Nonsense. You can't name a point." "Well, for one thing, you can eat horse meat. Thousands do."

## Married No Longer.

Married no longer, the great inventor of the automobile is now a widower. He has a new wife, a car. He has a new wife, a car. He has a new wife, a car. He has a new wife, a car.

# PARASOL WEATHER

Along with the cool Summer Dress, the Parasol has the call. Holidays and vacation require some means of protection from the summer sun. Our Parasols answer this purpose well, and they are so inexpensive, so dainty and light that everyone should have one.

They come in a beautiful array of colors, borders and stripes. Ladies' Parasols 75c to \$3.75. Children's Parasols 19c to \$1.50.

Get your parasol now and get a full summers use out of it.

## BERRYMAN'S The Big Store

REPORT Cause immense loss. Observant, and experienced men compute that eight or ten rabbits eat or destroy as much grass as one sheep. As there are so many millions of rabbits in Australia, the loss in the carrying capacity of the country is appalling. The pest in New South Wales is spreading, notwithstanding all that is being done in the shape of trapping, poisoning, fumigating, and tagging out.

**Pretty Girls and Plain Men.**  
When a pretty woman marries a plain man it is not because she pities him. A woman loves a man because of his strength. His determination appeals to her, and wins her in the end, though she may not have been attracted to him in the beginning. Firmness compels a woman's admiration and respect, and that is the first stepping stone to love.

**Child-Training.**  
It is not fair to a small child for the parents or nurse to be careless about the little things that develop thoughtfulness, self-reliance and self-control in a child. Self-control is a characteristic absolutely essential to manhood or womanhood, and it is not learned in a day. It is the result of patient teaching and training through all the long years of childhood and childhood.

**Thought His Duty Ended.**  
The Duc de Raguse once explained to the Countess de Bogue the nature of his connection with the emperor as follows: "When the emperor said, 'All for France,' I served with enthusiasm; when he said, 'France and I,' I served with obedience; but when he said, 'I without France,' I felt the necessity of separating from him."

**Didn't Appreciate Whitman.**  
Shortly after Walt Whitman's "Leaves of Grass" made its appearance, J. T. Braddock was walking with Lowell in Cambridge, when the latter pointed out a door-way sign, "Groceries," with the letters set zigzag, to produce a bizarre effect. "That," said he, "is Walt Whitman—with very common goods inside."

**Yield of a Grain of Wheat.**  
Very few people have an idea of the bounty of nature. A scientist of Cambridge, Eng., recently made an instructive experiment which showed that a single grain of wheat sown in June, produced 47 pounds 7 ounces. One acre of fairly good land will produce 30 bushels of wheat or 1,260 pounds of flour.

**Nicaraguan "Capote."**  
Instead of raincoats, the Nicaraguan wears a "capote," which is a piece of impervious material almost square, with a hole in the center large enough for the wearer to put his head through. It is made by pouring rubber over unbleached muslin.

**Always There.**  
A New York theatrical man is advertising for the most beautiful woman in the world, as if every musical show press agent didn't claim that she was in the front row of the chorus.—Detroit Free Press.

**Motor Car Jumps Three Feet.**  
A motor car with six occupants dashed up to a drawbridge at Haddiscoe, Norfolk, just as it was being closed, and safely leaped across a space of three feet between the two leaves.—London Mail.

**Proof to the Contrary.**  
"I understand that a number of women have learned to smoke cigars," said the frivolous observer. "I don't believe it," replied Mr. Meekton. "The kind of cigars women buy nobody could smoke."

**To Remove Varnish.**  
Three tablespoonfuls of baking soda in a quart of water, applied with a rough cloth, will remove the old varnish very easily when you wish to revarnish furniture.—Woman's Home Companion.

**Whale Cast on Coast.**  
A whale, weighing five tons, was buried recently on the Berwickshire (Scotland) coast. The monster had evidently been run down by a steamer, and was cast up by the tide.

**Book Annoyed Him.**  
"Oh, please do away with that book!" was the remark of a man to the bench, when the conviction book was produced to show that it was his fifty-sixth appearance in court.

**Off the Wire.**  
Operator—"Number, please?" "Subscriber—"I was talking with my husband and now I don't hear him any more. You must of pushed him off de wire."—Milwaukee News.

**Shallow of Intellect.**  
Some men are very interesting for a first interview, but after that they are exhausted and run out.—Charles C. Coffin.

**Preserving Carpenters' Tools.**  
To keep tools from rusting, place a sponge moistened with coal oil in the tool chest.

**Man of No Force.**  
He makes no friend who never makes a foe.—Tennyson.

# CHARLEROI WINS ONE GAME; TIES ANOTHER; BOTH GO 11 INNINGS

## ROLL SCORES TWO RUNS IN FINAL COMBAT

Humphries Pitches Great Ball Against Braddock Independents

Afternoon Game.

William Roll, a distinguished young man hailing from Pittsburgh and not known as the fast one, was the conspicuous personage in the afternoon baseball combat at the ball grounds Friday afternoon. Inasmuch as the said William tallied both runs for Charleroi—they only got two—it might be adjudged that he won the game. He did with the able assistance of eight others, including Willis Humphries. The affair went eleven innings and looked when Roll got to third base on his last round as though it was going to go about double that amount. Roll's speed on bases with Haywood's scratchy single was what did the damage to Braddock. Charleroi scored the first run of the afternoon game in the fourth inning. Roll cracked out a two bagger. Guder fled out and Haywood went down at first. Miller hit to short. When the short stop heaved wildly towards first Roll came in.

Braddock scored their lone tally in the fifth inning. Rettger got a walk and on a single of Swaney's went to third. He scored on a sacrifice fly.

Thus the score stood until the last half of the eleventh. Then Roll, second up, tapped out a single between short and second. Guder created disappointment by making the second out. Haywood looked determined when he came to bat. He hit into the infield and scampered for first. There was somewhat of a musc up over the ball, and Roll kept going past second to third. While the Braddock fellows were running about like wild folks are generally supposed to run about Roll dug for home and made the bag with a final jump that beat the ball hardly any. It was enough though and won the game.

Pat Swaney who was with Bill Phillips when Indianapolis trained out here last spring pitched good ball for Braddock, but on the whole did not do as well as Willis Humphries who kept a masterly hand on the situation on all times. The score:

Charleroi	R	H	P	A	E
Mathers, m	1	1	1	0	1
Urban, s	0	1	1	4	1
Roll, 3	0	2	0	3	0
Guder, r	1	1	1	0	0

Total	6	8	33	15	5

Charleroi .002110000200-6  
Braddock .000015000000-6

Home run—Humphries. Two base hit—Guder, Haywood, Verosky, Coulson, Miller. Stolen bases—Paul, Coulson. Struck out—By Sutherland 8, by Osborne 6, by Humphries 3, by Miller 4. Double plays—Urban to Haywood to Coatsworth; Haywood to Urban. Bases on balls—Off Sutherland 2, off Miller 2. Umpire—Kearnes.

**Notice.**  
The North Charleroi school board will receive bids for 2000 bushel of coal more or less to be delivered in school building. All bids to be in before 7 p. m. July 15, 1913.

Yours Respectfully,  
S. W. Sharpneck, Secy.  
J-5-7-9-12

Floyd Chalfant, city editor of the Mail and Warren Kinder are in Pittsburgh today attending the eisteddfod. Mr. Kinder takes part in one of the choruses.

From county detective to brewery manager. Well, that's not so bad either.

E. H. Arrison, Administrator, Charleroi, Pa. Duncan, Chalfant & Warner, Attorneys. J-5-12-19-20-A-3-9

## HOME RUN SAVES DEFEAT IN THE MORNING GAME

Fast Playing in Ninth Inning Results in Score Being Tied Up

Morning Game.

Charles O. and Braddock fought eleven innings to an indecision in the ball ground. A lot of things characterized the affair. Three pitchers were used by Manager Mathers, Sutherland, Osborne and Willis Humphries. Sutherland retired in the sixth when the folks from the down river steel town got their eye on his shoots. "Rube" Osborne relieved him. What he did to the crowd was a plenty for the nine innings. Not a hit was made off his delivery and he struck out five of the nine men who faced him.

Where Humphries was used was in the ninth inning, when the score was 6 to 4 in favor of Braddock. The lad who was good enough a year ago for Pittsburg was sent in to bat for Osborne. Courtley had previously won a base on balls. What Willis did to the ball is still being related around the camp fires of the local fans. He connected with the second ball pitched and hit it clean over the left fielder's head to the fence. It was a beauty of a homer and tied the score.

The game had to be called in the eleventh to allow the players a chance to get a little something to eat to get back to the grounds in time for the afternoon struggle.

In the morning game there were a number of features. Roll was a star, and Haywood pulled off one or two plays very much out of the ordinary. Urban was on the receiving end of a couple of great ones, and Coatsworth, the new first baseman from California made all kinds of friends. The fielders were right there with the goods and so was the catcher, one William Courtley, Jr. hailing from Dunlevy and proud of it. And so are we proud. The score:

Charleroi	R	H	P	A	E
Mathers, m	1	1	1	0	1
Urban, s	0	1	1	4	1
Roll, 3	0	2	0	3	0
Guder, r	1	1	1	0	0
Haywood, 2	0	2	4	3	0
Miller, 1	0	0	0	0	0
Coatsworth, 1	1	0	0	0	0
Courtley, c	1	0	18	1	0
Sutherland, p	1	1	0	0	0
Osborne, p	0	0	0	0	0
Humphries, p	1	0	0	0	0
Total	6	9	33	12	2

Braddock	R	H	P	A	E
Paul, m	0	1	3	2	1
Phalan, s	0	1	5	3	1
Maxwell, r	0	0	3	0	1
Stanks, c	1	1	2	1	0
Verosky, 1	1	12	9	0	0
Rettger, 3	1	0	1	1	1
Coulson, 1	2	3	4	0	0

**Notice.**  
The North Charleroi school board will receive bids for 2000 bushel of coal more or less to be delivered in school building. All bids to be in before 7 p. m. July 15, 1913.

Yours Respectfully,  
S. W. Sharpneck, Secy.  
J-5-7-9-12

Floyd Chalfant, city editor of the Mail and Warren Kinder are in Pittsburgh today attending the eisteddfod. Mr. Kinder takes part in one of the choruses.

From county detective to brewery manager. Well, that's not so bad either.

E. H. Arrison, Administrator, Charleroi, Pa. Duncan, Chalfant & Warner, Attorneys. J-5-12-19-20-A-3-9

# Light, Heat, Power Three Millions at Your Disposal

The West Penn Electric Company, in order to supply light, heat and power, day and night, continuously, to its consumers has invested three millions of dollars in its Connellsville Power Station. This investment was made to serve every person in this community, whether the need be for one light or one thousand, one horse power of ten thousand. This source of electric energy will soon be supplemented by a mammoth Hydro-Electric Station, one of the largest in the East, with a capacity which far exceeds the estimated power requirements of this community for years to come.

## A Rate of Reliable Service

Duplicate machinery and protective devices insure a minimum of interruptions to our service. Fifty Thousand Dollars was spent during the past year for protection against lighting alone. Every precaution known to science has been taken to protect you against inconvenience by reason of the failure of our service.

As a result, West Penn Service is reliable and can be depended upon. It is always here, ready to light your home, or store, or turn the wheels of your factory, the moment the switch is thrown in.

That tells the whole story of West Penn Supremacy in the Western Pennsylvania field.

# Rates lower than others can quote

West Penn Rates compare favorably with those quoted by the Niagara Falls plants, where power is cheaply generated from the tremendous force of the greatest of water falls.

Our rates are and always have been reasonable. They are the lowest that can be given consistent with good, reliable service. That is why mines and mills in this territory are discarding individual power stations and using West Penn Service.

Our rates are lowest whether your need is small or great. West Penn Service is at the command of the smallest home or the greatest corporation. We invite inquiries as to the cost of our service for any purpose.

# The West Penn Electric Co.
